

PDREP Publish – January 2013
The following CSRs are included in publish release Version: 5.0.12

CSR S/N	LITERAL (Program)	TITLE	CHANGE NARRATIVE
1000450	CSI	CSI Titles Not Readable	The search result clickable link column headings are now visible. They were not previously because the link was the same (blue) color as the background so only appeared when mouse rollover.
1000548	PDREP	Literals not displaying in PQDR Search results view	Corrects issue when suing the generic Search link on main menu, the PQDR results that are viewable were only showing the code without the code description.
1100820	CSI	CAGE Repeated In Company Name Field	CAGE Code was repeated in Company Name Field vs. the actual company name.
1200072	CSI	SMIC Codes D5 and D6	SMIC Codes changed to: L1, C1, S1, D5, D6, SW AND VU
1200179	FOP	Sent Message to Supervisor	FOP Send message to Supervisor doesn't default to originators DoDAAC
1200315	PQDR	1227s truncated in PDF file	Stops truncation of DLA 1227 PDF file.
1200456	PQDR	CAT I justification	Removes the CAT I justification box on the Supplemental Data sheet when PQDR is reclassified to CAT II.
1200461	PQDR	Worklist sort function	Corrects Sort function on worklist when sorting by "cat", "received", "cage", and "overdue".
1200489	EZMIR	EZ MIR Error Message Correction	Logic and error message changed for dollar value defective vs. dollar value received.
1200508	PQDR	DLA-1227 label	Changes 1227 heading to "View DLA-1227 (HTML)" and "View DLA-1227 (PDF)".
1200509	PQDR	Underline help instruction	Add instruction to splash screen about underlined items provided help.
1200510	PQDR	PQDR worklist	Does not allow "From Date" in worklist to greater than today's date.
1200522	PQDR	EZPDR-Add SL4701 screener	<ol style="list-style-type: none"> 1. Adds SL4701-DLA pre-screener to the EZPQDR drop down. 2. Routes DLA submitted EZPQDRs to SL4701. 3. Enables DLA pre-screener access to the EZPQDR tab.
1200523	PQDR	EZPDR- Change N63126 to N60530	<ol style="list-style-type: none"> 1. Change N63126 to N60530 in EZPQDR. 2. Will not export N60530 PQDRs through the PQDR.II.
1200551	SDR	Add DLA-All to Preview EZSDR Entry	Allows Screener to draw down DLA action SDRs specifically for review.
1200553	PQDR-AT	Excel File result label update	Corrects the column formerly labeled as "DLA Cause Code" to "Broad Cause Code"
1200576	Warranty	Warranty Timeout	Warranty Time Out Errors
1200584	Warranty	IUDI Connectivity	Null point exception error that is happening in production
1200585	MIR	Missing Data On Material Inspection Record	MIR records that were entered via EZMIR did not show User Code or Added Activity.
1200608	ADHOC	Up and Down Selectors for Columns	Up and Down selectors added to the ADHOC tool to move column up or down so it appears in the correct location in the MS Excel file and results.
1200648	CAD	Contract Batch Update	Import missing Contract Required Dates from EDA and set PPI indicator to 'Y'
1200684	EZPQDR	Block 21 EZPQDR Reset	Corrects Reset for block 21

1200719	MIR	CAD Label Update	Changed CAD label on MIR form to read "Certifying Activity Designator" vs. "CAD"
1200730	PQDR	QDR Batch Update	Carryover from PQDR lean team directive - Remove logic that auto-closes PQDRs when the Screening Point Activity is not in PDREP
1200748	PQDR	Removal of Added Date from QDR updates	Stops changing the "Added Date" when PQDR is updated at originator level.
1200758	PDREP	Speed Up Database Searches	Lets customer know if the result being returned exceeds a threshold of 10,000 records for the generic Search link that searches all record types in PDREP. If greater than 1000 requests customer to narrow the search. This prevents possible time outs due uncontrolled queries crated by the user.
1200764	CAD	Contract Batch Update	Modify the batch update to set the PPI indicator correctly
1200765	PDREP	BINCS link broken	Updates the URL for the BINCS link.
1200770	ADHOC	Updates to the ADHOC Tool	Adds selectors to move selected data elements up or down to arrange results in the desired order.
1200771	PDREP	Material Profile Slow	Corrects issue where the material profile times out prior to returning results.
1200773	CAR	Worklist Update	Add date range limit for returned CAR data.
1200774	PQDR	Remove Force Promote from Support Point	Removes "Force Promotion" from all non PDREP personnel.
1200777	PDREP	Fix development data base and change error message	Sweeps data base for DoDAACs with null "City" fields.
1200782	CSI	Number Of Years In Search Incorrect	Changed "Date" column heading in CAGE/NIIN Search to "CSI Status Date".
1200800	PQDR	W81D17 PQDRs not going to JDRS	Reinstates export trigger for W81D17 PQDRs.
1200804	FOP	FOP ERROR	Seeing multiple SAP in the PDF and HTML view.
1200806	FOP	FOP ERROR	Seeing multiple SAP in the EDIT view.
1200811	PQDR	Error in QDR NIIN list	Investigates "a non-numeric character was found where a numeric was expected at" error message.
1200812	SAP	SAP Update	Quotation marks were not handled correctly and caused an error.
1200813	FOP	FOP Update	Error in FOP Transfer Functionality
1200817	SDR	SQL Exception in SDR	Generates an error message when attempting to enter duplicate Disposition Codes.
1200821	PQDR	Reject closed import PQDRs if at Support Point	Does not allow closing record update imports from PQDRII if PQDR is at Support Point in PDREP
1200834	PQDR	Aviation time since new/overhaul boxes	Adds "Time Since New" and "Time Since Overhaul" fields to originator screens for aviation PQDRs
1200835	PQDR	Aviation actual failed part	Adds "Actual Failed Parts" in a separate "Actual Failed Parts" table from "PQDR-View/Edit Action Point" screen.
1200839	SDR	Follow-up Button Change	Changes the "Send follow-up to Action Point" button to "Send update/correction to Action Point" to clarify the button's purpose.
1200843	SDR	Auto-fill SDR Block 24A	Preparing Official's name and phone number (SDR Block 24A) is auto-filled from the User's profile.
1200851	PQDR	Quantity shipped added to exhibit tracking	Adds "Quantity Shipped" field to Exhibit

1200854	SDR	Add Closed Date option to the SDR Worklists drop down	Allows for listing SDRs that were closed within a specified time frame.
1200861	PDREP	Search Check Boxes	Search check boxes are now mutually exclusive. Only one check box may be selected at a time.
1200868	PDREP	NSN Batch Update	Modify the batch update to include the DEMIL Code, Controlled Item Inventory Code, Army SOS and Air Force SOS.
1200876	FOP	Version Numbers	The version numbers are not getting incremented correctly in the FOP data entry page, approval history part. Some FOP records show up with non-incremented numbers.
1200878	PDREP	Remove NON ASCII Characters	Removes non-ASCII characters when a record is saved in PDREP.
1200881	FOP	Default Radio Button	In the FOP work list please change the default radio button to be on "Both"
1200882	FOP	Title Change	In FOP please change title "FOP Control Number" to "Cage Code"
1200900	PQDR	CBM checkbox indicator	Adds a "Condition Based Maintenance (CBM)" checkbox on originator pages for aviation PQDRs
1200902	PQDR	Army aviation timestamp - Originator	Adds a "snapshot" copy of the SF-368 in the History when the Originator submits PQDR to Screening Point
1200905	PQDR	Army aviation timestamp - Screening Point	Adds a "snapshot" copy of the SF-368 in the History when the Screening Point forwards PQDR to Action Point
1200908	PQDR	Army aviation timestamp - Action Point	Adds a "snapshot" copy of the SF-368 in the History when the Action Point forwards PQDR to Support Point
1200946	FOP	FOP Email	When trying to send multiple emails, receive error. Please allow for multiple emails to be sent in same day
