

**PDREP Publish - 19 May, 2013**  
**The following CSRs are included in publish release Version: 5.0.13**

CSR S/N	Literal (Program)	Title	Change Narrative
1100338	PDREP-Search	Added look ups	Added look up button and function to the CAGE and DoDAAC Search.
1100550	PQDR	DLA-1227 Block 15 Title	On Support Point "Input 1227 Data" page, re-label block 15 from "Evaluation" to "Evaluation of Current Production" as shown on hard copy DLA 1227 form. DLA-1227 (HTML) and DLA-1227 (PDF) are already correct.
1100821	Survey	Can't Save Corrective Action Date	Completion Date renamed, CA defaults to "No", External Control Number block expanded to 25 spaces
1200095	PDREP	Add required delivery date and actual delivery date to initial results CAD search	Adds required delivery date and actual delivery date to results to make it easy to find missing the required delivery dates, and permit updating the record. Also, adds a down load to excel feature.
1200427	PDREP	1348 link moved	Moves the 1348 Link form the main menu to the Exhibit Tracking area of SDR and PQDR.
1200462	PQDR	Exhibit Receipt Letter	Changes logic so that when Action/Support Points issue "Exhibit Received" letter, PDREP will re-open a closed PQDR and send it to letter issuing point, only if PQDR was closed with code 'CF-Exhibit Unavailable'. This does not affect PQDR if it is still open.
1200605	PQDR	Action Point Parent/Child Link	1. Adds a Parent/Child link on "Complete Action Point Investigation" page. 2. Places Parent/Child link information on the 368 PDF Supplemental data pages.
1200619	PDREP	Search Main Menu	Adds DoDAAC, CAGE, and Requisition Searches for data collected by PDREP from external sources.
1200644	Warranty	Electronic PDFs	Adds legend to PDFs to help the user with the definitions of each block on PDFs
1200657	SDR	Display contract number on SDR	Adds contract and purchase order number blocks to the Originator edit page
1200706	PDREP	CAD-Date Sort	Corrects Date sort issue when the CAD results Date column is sorted.
1200709	PDREP	Login	Removes requirement to enter Login user name when logging in to PDREP using a CAC through the DoD Log In link.
1200837	PDREP	ARISE CSI Web Service Import	PDREP imports Army CSI indicators by request from ARISE and updates/checks whenever PQDR forwarded to new level.

1200897	SDR	SDR Action Point save	Action Point entries are saved and not released until release date is added
1200923	PDREP	User Profile Access NAVSUP 854 Report	Adds ability for administrators to change access levels to the NAVSUP 854 report, similar to the access control for the NAVSUP 874 report.
1200993	Feedback	Quotes in Title	Permits quotes in titles.
1200994	Warranty	PDREP XML for Warranty	Updates JAR files to improve the functionality of Warranty
1201005	ADHOC	ADHOC Save Update	Corrects issue where filter and selected data were not always saved in the same order as intended.
1300021	MIR	EZMIR Contract Number Notice	Changed error message from "Contract activity is not on PDREP database" to "Contract Activity is not valid. Note: the first six characters must be a valid DODAAC."
1300022	ADHOC	ADHOC-Alphabetical Drop Down	The ADHOC personalized worklist drop down now appears in alphabetical order.
1300023	SDR	SDR Import-Shipper Activity Invalid	If a Shipper DoDAAC or RIC is invalid on import from WebSDR, the data shipper data only produces a warning, vice fatal import error and the record is added to PDREP.
1300038	SDR	SDR Import-Cancelled SDR	When a cancel transaction is received from WebSDR for an SDR with matching record control number; the SDR is automatically closed as a canceled SDR.
1300040	SDR	SDR Export-Redirect	If an SDR is redirected, action code 504 is added to the SDR, and the redirect is logged in history. The SDR is then sent as a type 11 transaction with a RIC identifying the new action point (instead of a DoDAAC). The RIC is required versus a DoDAAC for a successful redirect at WebSDR.
1300041	SDR	SDR Export-Resubmit	When an SDR is resubmitted, a transaction type 00 is now generated and sent to WebSDR. Upon resubmit, the original WebSDR tracking number is removed from the PDREP tracking number field and appended to the originators remarks with the comment "PREVIOUS WEBSDR NUMBER XXXXXXXXXXXXXXXX". Also, the resubmission is logged in history.
1300042	SDR	SDR Import Auto Generation of RCN	Record Control Numbers for imported WebSDR SDRs are now auto-generated using the format Originator DoDAAC- Year-Next available sequential number i.e. N45112-13-0001.
1300048	SDR	EZSDR problem type default	EZSDR problem type default changed to type 7 instead of type 6
1300060	SDR	SDR Export-Use DoDAAC vice RIC	Removes the requirement for PDREP to convert DoDAACs to RICs in most transactions; except when redirecting to a new action activity. See CSR 1300040.
1300065	SDR	SDR Export-Removes the SOS from exported transactions	Removes the requirement for PDREP to send SOS within WebSDR transactions.
1300069	PDREP	IHS User Name Password	Updated password location

1300084	OTHERS	Remove 5 year limitation on search	Remove 5 year limitation on search. Maintains a maximum search return result of 10,000 records.
1300086	ADHOC	ADHOC-Delete a Saved ADHOC	Corrects issue where ADHOC report may be inadvertently deleted.
1300108	Warranty	CAR-EXCEL Link	Provides excel link to download search results
1300109	Warranty	QALI-EXCEL Link	Provides excel link to download search results
1300113	SDR	Contract Admin Office Import	Updates import of WebSDR transactions to include import of Contract Administration Office when provided by WebSDR transactions.
1300115	SDR	FMS SDR-PQDR	When FMS SDRs are converted to PQDRs, the SDR RCN is added to the history of the PQDR for reference.
1300131	SDR	Add close date to SDRs with auto-reply	Adds 3 new reply codes which require no action to "info only" functionality and adds closed dates to the records.
1300132	SDR	Routing of Marine Corps SDRs for DoDAAC M98551	SDRs with an Action Point DoDAAC of M98551 will be assigned as direct by USMC.
1300146	PDREP	SDR Export-DCMA Historical Records	DCMA SDRs that are redirected within by Navy Action points are sent to WebSDR as Historical records.
1300148	PDREP	User Profile	Updates to user profile page
1300165	QALI/LOD	LOD Clone Feature	Provides clone feature to all QALI/LOD records
1300176	Test Records	Updates Test Record RCN Display	Corrects issue where the last digit of the Test Records RCN was not displaying.
1300183	PDREP	PQDR Analysis Tool	Updates to PQDR-AT code refactor
1300187	SDR	View exhibit tracking link	Updates view exhibit tracking link, SDR front view
1300197	SDR	SDR - Action Point release	Prevents Action Point release date removal when changes are made on the Originator's edit page, unless it's a resubmit and the SDR is put back on the Action Point's worklist
1300199	PDREP	Add attachments with file names up to 100 characters in length	Permits file attachments uploaded to PDREP to have up to 100 character file names.

1300200	PQDR	PQDR Delete	Permits deleted PQDR Record Control Number to be reused after a PQDR is deleted. Duplicate active PQDR record Control Numbers are not permitted.
1300205	CSI	CSI Status Date	Change "Status Date" in Worklist display results to "CSI Status Date" to be consistent within CSI module.
1300206	SDR	Marine Corps SCS data feed	Moves Marine Corps Stock Control System data feeds into PDREP
1300209	SDR	SDR Action Point User update	Updates SDR record when saved with no data in Block 3 (To)
1300219	SDR	510 - Action Response Code	Sets up Response Code 510 (Forwarded to IM for disposition) to emulate a redirect
1300226	Feedback	Title Update	Permits 50 characters in the title.
1300229	SDR	SDR Reply Code 300 series	Changes 300 series Reply Codes definitions and temporarily suppresses them.
1300230	PDREP	Login Screen	Centers application login screen
1300232	Warranty	WAWF Process	Corrects the un-compression process when uploading PDFs for Warranty.
1300246	MIR	EZ MIR Does Not Have A Cancel Button	Add Cancel button to Create New MIR screen to be consistent with SDR and PQDR.
1300247	GFP	PDREP EZ Warranty & EZ GFP	Creates new look for to match rest of PDREP.
1300273	GFP	Combining Tab	Combines excel template tab, excel upload tab, and view processed file tab into one tab.
1300287	PDREP	Federal Logon	Updates password reset rules
1300290	GFP	Down Load PDFs	Provides link for the user to be able to download GFP/Warranty/SOR PDFs
1300304	PDREP	Reorganized Main Menu	Reorganizes the main menu and provides greater flexibility to adjust which links appear on a users main menu.
1300330	SDR	SDR History Resubmit	This change adds SDR resubmitted record to the PDREP correspondence table for history.
