PDREP Publish – 15 September, 2013
The following CSRs are included in publish release Version: 5.0.14

Feedback S/N	Affected Program	Title	Change Narrative
1200383	PQDR	SF 368PDF/HTML & additional help Pop Up links via PQDR work list	Removes ability to modify url on PQDR SF368 pop up.
1200384	PQDR	History pop up	Removes ability to modify url on PQDR history pop up.
1200578	Warranty	Generic Search	Adds Warranty data to generic PDREP Search.
1200586	PQDR	PQDR - Counterfeit question	Removes the auto fill to counterfeit question and ensures users select yes or no radio buttons, or select 5AS in the dropdown menu for Defect Attribute Codes.
1200701	PQDR	PQDR-Edit Originator Link on Support Point Page	Adds "Blocks 1-21" link on Support Point Data Entry page.
1300003	SDR	File Attachment Naming Convention Update	Removes odd characters from attachment file names which cause a failure when moving to the WebSDR interface
1300082	PQDR	Defective Part Hours	Adds "Hours" as another field to the "Actual Failed Parts" data page. Displays "Hours" as an additional column to the "Actual Failed Parts" table on Action Point Data Entry page. Displays "Hours" in "Actual Failed Parts List" section of Supplemental Data Page of SF-368
1300133	SDR	Routing of Marine Corps Packaging SDRs	Marine Corps SDRs with Discrepancy Codes beginning with "P" will be routed to DoDAAC M90095
1300136	User Profile	Access Control Updates	Updates the User Access web page for PDREP administrators, enabling independent access control for each application, and rearranges access controls.
1300137	User Profile	Access Control Updates	Enables PDREP administrators to individually control access to CAD, SQD, Survey, Test, and MIR applications.
1300166	SDR	DCMA Action Point Notifications	Email notifications will be sent to DCMA Action Points when SDRs are received from WebSDR identifying them as Action Point
1300251	SDR	SDR Attachments	.PPT, .PPTX, and .TIF file types will not be sent to WebSDR as they cannot accept them
1300252	PQDR	842P-Originator Rebut Process Update	Removes option for Originator to reopen PQDR automatically when rebutted to Screening Point. This link will now request the Screening Point to reopen the PQDR if they agree with the rebuttal request.
1300265	PQDR	PDREP Originator data	Removes "Edit Mandatory Originator Data" link on Screening Point and Action Point Data Entry pages and replaces with "Blocks 1-21" link.

1300303	PQDR	Re-open PQDR Link	Changes link on Screening Point page from "Close this PQDR" to "Reopen this PQDR" when PQDR is closed. Using this link will force the status to "AG-CASE/PQDR REOPENED" when PQDR is reopened.
1300312	User Profile	Access Control Updates	Enables PDREP administrators to place personnel on the Navy Bulletin Alert list and/or SAP Alert list.
1300317	PDREP	Update LOGON Links	Updates PDREP 'LOGON' links throughout PDREP to read 'LOGIN'.
1300318	System Interface	Army MATCAT Data	Army MATCAT data is now down loaded into PDREPs NSN reference tables for use within various applications and ADHOC.
1300336	PQDR	842P - Support Point Acknowledge Date	1. Adds a "Support Point Acknowledge Date" field on the Action Point Edit page. 2. Date will auto fill with system date when Support Point performs an acknowledgement correspondence. 3. Adds Support Point Acknowledgement Date to the adhoc.
1300343	User Profile	Access Control Updates	Enables PDREP administrators to remove access to SAP, SDR, and PQDR applications, including origination. Removes default settings for access.
1300344	PDREP Search	DODAAC View Updated to display	Adds the TAC2-transportation and TAC3-billing addresses to the DoDAACs view and ADHOC tool.
1300350	PQDR	Split Operating Time into two fields	Separates numerical value and unit of measure on Operating Time at Failure (Block 7) of SF-368
1300353	PQDR	Split Time Since New and Time Since Reworked into two fields	Separates numerical value and unit of measure on Time Since New and Time Since Reworked (Block 7) of aviation only SF-368s
1300361	System Interface	SDR-Import	Adds follow up data and contract received from WebSDR to the PDREP SDR.
1300370	PQDR	Increase field size to 250 characters	Increase Shipping Comments field from 200 characters to 250 characters on Exhibit Tracking Screen. Change label to (Max 250 characters) Increase database table field size to 250 characters
1300382	System Interface	SDR-Import/Export	Adds history entry clarifying the type of transaction received or sent.
1300396	System Interface	CAR eTools Control Number	Corrects import error caused when the eTools number is longer than expected.
1300404	PQDR / SDR	1348 PDF	Correction made to 1348 pdf to prevent possible display error if an NSN was not present.
1300407	Main Menu	Move MIR, SDR and PQDR Reports	Moves the MIR L1/SS Quarterly Report and MIR Report from main menu to the MIR application. Moves the PQDR Reports from main menu to the PQDR application. Moves the SDR Reports from main menu to the SDR application.
1300408	Main Menu	Main Menu - DLA Contractor Summary	Moves the DLA Contractor Summary to be on same page that as the DLA Top Twenty and DLA Aging Reports. Moves DCIS Report off the Special reports and places link on Main Menu.
1300409	Main Menu	Application Tabs	Separates the tabs for the CAD, MIR, Test, Survey and SPQ so only application related tabs appear.

1300411	PDREP Search	NSN Search View	Add the Navy/Marine Corp material manager information to the NSN view. Also, adds Army Material Category, Ship CSI indicator, and FIIG Criticality Code to the view.
1300413	PDREP	NAVSEALOGCENDET	Removes "DET" from NAVSEALOGCENDET at the bottom of all PDREP pages
1300416	SDR	Permit FMS Requisition Numbers	Will allow validation of Requisition Numbers that don't follow the first six number DoDAAC format
1300419	PDREP Search	Main Menu Search Tool Updates	Adds new search links for Bulletins, DUNS, FSC, NSN, User, and routing identifier codes (RIC) to the main Menu.
1300428	FOP	FOP Process	Corrects overlap of process nomenclature and frequency when viewed in PDF.
1300433	User Profile	Adds Unit field to User Profile	Adds a unit field to allow Army Aviation and Missile personnel to identify the unit they are attached to within a DoDAAC. More discrete than the DoDAAC but not as discrete as a Office/Organizational Code within the unit.
1300434	User Profile	Adds Multiple Action Office / Organizational Codes to User Profile	Permits Multiple Offices/Organizational codes. Primarily to be used for Army Aviation to identify personnel to multiple weapons platforms and to control access to PQDR based on the platforms in the user profile.
1300442	PDPEP	Status bar	Adds the status bar to the bottom of PDREP web pages
1300454	Survey	Suppress CA Completed Date	Corrective Action Completed line does not show when the Corrective Action indicator is "NO"
1300458	PQDR	Originator screen cancel button problem	No change to users. When the Cancel button is selected on Blocks 1-21, the data will be synchronized between the database and shared view of Blocks 1-21.
1300465	System Interface	SDR-Import	Adds additional information to the PQDR history correspondence regarding exhibit data passed on SDRs that have a Q11 discrepancy code.
1300469	Reports	Material Profile	Corrects issue causing a warning triangle to appear in the status bar at bottom of web page.
1300486	System Interface	IUID API Updated	Updates the API used to interface with the IUID Registry.
1300501	PQDR	Change Screen Title	Retitle the aviation process indicator checkbox to read Aviation & Missile process indicator.
1300506	System Interface	PQDR-II Updates	Imported PQDRs from PQDR Inter-service Interface missing description of deficiency data is now rejected. A reject email is sent to the system administrators of the system trying to send transaction to prompt correction and resend of PQDR.
1300522	System Interface	SDR-Export	Automatically adds Owner RIC to outgoing SDR for WebSDR based on the requisition numbers 'To Ric'.
1300570	Warranty	Download PDFs	Allows for XLS and PDFs to be downloaded from EZ-Warranty
1300572	PQDR	PQDR-Status Code Update	Added Status Codes 'CV-Corrected and Verified' and 'CE-Enhancement' for 842P compliance.
1300601	Feedback	Feedback Update	Feedback module updated so the Reviewed Date and Reviewed User Code save only when a feed back record is being assigned or reassigned.
1300608	PQDR	White Space Error	Fixes White Space error when users put Requisition Number in Create PQDR

			initial page
1300626	System Interface	EBS Interface	Updates the action point acknowledgement date when a 09-Action Point Acknowledgement is processed.
1300648	PQDR	AVIATION_IND Field Null Pointer Exception Error	Fixes error when aviation check box is not checked
1300659	System Interface	PQDRII	Prevents closure when record is still at a action point.
1300660	System Interface	PQDRII	Prevents update when data is inconsistent with a support point release date, but no support point DoDAAC provided in the transaction.
1300661	System Interface	SDR to PQDR Conversion	Updates screening point POC info on conversion
1300670	PQDR	Non-Management Access Privileges	Limits users with non-management access to work PQDRs only assigned to that user code
1300675	SDR	SDR Auto close Email Notifications	Email auto close notifications are normally sent when an SDR has been answered, but not manually closed after 120 days. Emails will not be sent if the notification is going to a .dla address.
