FEEDBACK S/N	AFFECTED PROGRAM	TITLE	CHANGE NARRATIVE
1100717	Login	Password Reset	Updates password security settings.
1200256	Feedback	Feedback Sorting	Feedback results now sort on column headers.
1200354	RIMS	RIMS Application	Rationalizes the MIR application into the Receipt Inspection Management System (RIMS) module for Shipyard use.
1200468	TEST	Updates the Edit Screen	Attachments will be added directly onto edit screen and the "To add/view attachments link Click here" link will be changed to a "Save & Add attachment" button
1200469	SQD	SQD - Reporting Activity Field	(M) Mandatory to be added next to the Reporting Activity field
1200496	PQDR	PQDR Action Letter	Removes "standard" default name and prepopulates with actual user in signature block
1200636	CAD	Add / Edit a CAD Item	When adding an Item the cursor will now move to the bottom of the page
1200909	PQDR	842P-End Item and NHA Fields View/Edit	Displays the following fields: End Item CAGE, End Item Nomenclature, End Item Part Number, Engine Model Number, Engine Serial Number, and Next Higher Assembly CAGE for all PDREP users. Previously were only for aviation users.
1200912	PQDR	842P-Engine Serial Number	Adds Engine Serial Number and Engine Model Number fields to the originators submission page, blocks 1-21 but hidden in EZ mode. Items are placed near End Item NSN field (Block 18).
1200924	FOP	FOP Hyperlink	Provides hyperlink to FOP number to allow access to applicable FOP from Report List
1300103	SDR	EZSDR Notification Email to Screeners	Suspends forwarding of email notifications to screening points that new SDRs have been submitted
1300119	PQDR	PQDR-FMS Requisition Number	This restricts the validation of Requisition Number at all locations as well as removes the "auto fill" button. Fields will auto populate when tabbing out of the requisition field.
1300173	SQD	SQD - Misleading Error Message	Error message revised based on user FSC input
1300174	ALL	Survey, Test, SQD, MIR Search Defaults	Search parameters entered by user to remain active as opposed to returning to default search
1300177	Survey	Add Category Button	Add Category button will be relocated on the page so as to be more intuitive
1300188	PDREP	Attachment Types	Adds new file types that are permitted for upload. Permits the following mime types to be added as attachments: .VAR, .ITA, .RDF, .RTF, .XML, .XFDL, .CSV, .MDB, .AVI, .MOV, .WAV, .WMV, .TIFF
1300217	ADHOC	ADHOC Drop Down List	Makes the drop down list alphabetical.
1300259	Feedback	Feedback Edit Access	Updates rules for access to updating Feedback records. SYSCOM/Service managers a can update records submitted by personnel with a matching SYSCOM/Service Code.
1300270	PQDR	PQDR-Delete Link Appears When It Should Not	Removes "Delete" link from PQDR worklist unless PQDR is at originator (Draft status).
1300291	SDR	Redirect SDR	Updates the SDR Action Point email address to the individual selected during a redirect action and displays the current action point name and email address on the action point edit page.
1300322	PQDR	PQDR-Expand Mark For/Attention	Expands field from 15 to 36 characters.
1300374	PQDR	Three-Tier User Profile Process	Adds a third layer of organization (Platforms) to Army Aviation PQDR process when assigning PQDRs from Master Screener.
1300381	SDR	History Entries	An entry into History will be made when an SDR is released to the Action Point
1300412	PQDR	PQDR Reclassification Correspondence Codes	Separates the three reclassification transactions into the respective codes 1) CAT I TO CAT II (136) 2) CAT II TO CAT I (137) 3) SUB-CATEGORY UPDATE (139). Does not reclassify while PQDR is in draft status.

1300417	PQDR	Parent Child Improvements	Makes Parent/Child PQDRS searchable in ADHOC and personalized worklist Identifies Parent/Child at the top of all Data Entry pages Hides forward links on children so they cannot be sent to support point. Removes investigation data when child link is removed Does not allow Parent to be sent back as incorrect recipient to screening point when children are attached.
1300426	ADMIN	User Access Request	Adds the RIMS, MIR, CAD, SQD, Survey, and Test user access option on the automated request page
1300437	PQDR	PQDR Product Type Selection	1. Changes the "Aviation Process Indicator" check box to a drop down menu titled "Product Type" that is only visible to all of Army, all of Air Force and NAVAIR personnel. 2. Drop down selections are: "<SELECT ONE>"(Default value), "AVIATION", "MISSILE", and "OTHER". 3. Selecting one of these three choices does an immediate lookup and refreshes causing certain fields to appear and certain field to contain drop down choices 4. "Aviation" identifier in the header of all points' data entry pages.
1300449	QALI/LOD	Worklist	Allows user to return to worklist when finished looking at a record
1300471	CAGE Search	CAGE Search Update	Automatically searches CAGEs using upper case regardless of data entry in lower case.
1300498	Warranty	Warranty Backward Capability	Allows user to view older versions of the warranty PDF
1300585	PDREP	Attachment Size	Increase files size limit to 25MB.
1300600	Warranty	GFP Forms	Changes GFP Form email address to WEBPTSMH-APPS@navy.mil.
1300613	PDREP	ADHOC	Places the count and down load links at the bottom of the results page to the top of the results page.
1300641	Warranty	View PDF Link	Adds link to warranty page that allows the user to view PDF's
1300642	Warranty	PDF Duplicate Check	Provide capability to check for duplicates when uploading Warranty and SOR data
1300644	Warranty	Barcode Scan	Adds functionality for barcode scanning to warranty search page
1300645	Warranty	Warranty Module Menu	Adds a new tab allowing users access to the UII search page within the warranty window
1300646	Warranty	Add Version Number	Adds version number to active PDFs
1300658	Warranty	Expiration Date	Updates format on the expiration date
1300736	SDR	Delete EZSDR Screening Step	EZSDRs will be entered directly into PDREP when submitted, rather than having the SDR forwarded to a Screening Point who, in turn, enters or rejects them
1300739	Access	Non-Management Level Access	Creates non-management level access for CAD, Test, MIR, and SQD record types. Personnel may create submit and edit only records they enter.
1300743	PQDR	Screening Point Letters: Closing Actions on PQDRs	Removes "standard" default name and prepopulates with actual user in signature block
1300765	PDREP	DoDAAC - MAJCOM	Adds the MAJCOM to the display results for a DoDAAC.
1300799	PQDR	ACFT/MSL Drop List	Adds standardized drop down selections for Engine Model and Type. Model and text block for engine serial number
1300803	PQDR	Originator Access (Army)	Once a PQDR is submitted to an Army Master Screener, the Army Originator will only be allowed to view the PQDR, add attachments and send messages. They will not have access to "Blocks 1-21" link on "Originator Point Data Entry" page and not have access to "Add/Edit DoD Unique Item Identifier" or "Add/Update Shipment Tracking" links on the "EXHIBIT TRACKING SUMMARY" page.
1300839	PQDR	Hide Blocks 1-21 When PQDR Is Closed	Hides Blocks 1-21 on all data entry pages when PQDR Is closed to enhance data integrity
1300842	ALL	SPQ Table - Added and Update Activity	Adds the added activity and update activity to the SPQ table
1300843	PDREP	Removes trim function (DLA QN DATA)	Trim function removed to improve performance of SQL.

1300851	PQDR	PQDR Screen Cancel Issue	Reloads common objects to synchronize application and database
1300855	PQDR	WUC Field Character Length	Increases the "End Item EIC/WUC/TAMCN" (Block 16) field on the "PQDR Originator Data Entry Blocks 1-21" page to 20 characters to match the database.
1300856	PQDR	842P-Display only Requisition Number Fields	Make as display only the requisition number and NSN fields on the DLA Action Point web page.
1300858	PQDR	Send Message Attachments Issue	Removes extraneous attachments from drop down list belonging to previous PQDRs in the same session when sending correspondence.
1300865	PQDR	842P- Support Pt / Action Pt	Changes Support Point Acknowledgement letter addressees TO the Action Point and CC the Screening Point.
1300867	Main Menu	Removes Obsolete links	Removes the 'Record View' record tab that showed next to the' PDREP Search' tab.
1300880	PQDR	Requisition Field	Removes the "Mandatory" requirement for a requisition number when closing a PQDR. This also change subsequent error message and updates reference from Block 10C to Block 13b.
1300885	EZ-Warranty	Progress Bar	Adds a progress bar to the "Upload/View Processed Files" page, to show that the download is in progress. Disable "View PDF" link after the user clicks it, to prevent duplicate requests.
1300886	EZ-Warranty	EZ Look and Feel	Changes the EZ-Warranty look and feel to be consistent with the other PDREP applications
1300889	Feedback	Feedback Search Criteria	Adds search parameter by subject/title.
1300902	Warranty	Updates PDF Link in EZ	Enhances the PDF download process
1300905	Main Menu	PQDR and SDR Search	Removes access to PQDR, SDR, and SAP search links when 'No Access' is the setting in the user profile.
1300907	Feedback	Feedback Search Criteria	Adds new parameters for searching the Feedback database. Including Date Range, SYSCOM/Service Code, Status, and/or reporting activity DoDAAC.
1300927	MIR	MIR Continuation	Adds button to create new MIR and also revises current "Continue" button after MIR created and saved
1300931	Database	Add Subject CN Column	Adds Subject CN Column to the ADMINPWD table.
1300953	PQDR	E-mail Size	Limits e-mail total attachment size to 9 MB.
1300968	FOP	Surveillance Plan Display	This update reduces the FOP display so that only one record is displayed for each CAGE code
1300969	FOP	Surveillance Plan	The surveillance plan workflow is modified to begin at the surveillance plan dashboard
1300970	FOP	Surveillance Plan Attachments	Allows all FOP users to add attachments to a FOP but only allows the assigned QAR to delete them
1300971	FOP	FOP Worklist	Modifies the FOP application to only show active surveillances on the users worklist
1300978	PQDR	Originator Address Box	Makes the "Use Originator's Profile address as Originator Address" check box on Blocks 1-21 non-accessible after the PQDR is submitted. Screening Points are checking this box on imported PQDRs and these non-mandatory fields cause insert errors when null.
1300985	QALI/LOD	QALI/LOD Home Page	Changes the home page link to read "QALI/Letter of Delegation (LOD)
1301007	PQDR	W90BWX Action Officers - Non-Army Screening Point	Adds W90BWX in Army Action Officer selection for Aviation Master Screeners when Army is not the Screening Point.
1301068	PQDR	Closing Code Alignment	Changes labels and re-sequences closing codes on Screening Point, Action Point and Support Point pages to align with DLAR.
1400002	FOP	Send Message	Deactivates link "send TO Mail" until recipient is chosen. Deactivates "send CC mail" link until To Mail is filled in and another recipient is chosen.
1400012	PQDR	Email attachment links	PDREP should stop sending email attachments and start sending links to the attachments. The attachments will be available at the link provided for a set number of days and then will expire.
1400017	RIMS	Removes option to delete attachments from closed records	This change removes the option to delete attachments from closed records
