PDREP Publish – 20 September, 2014
The following CSRs are included in release Version: 5.0.17

1200025	PQDR	Closure Notification	Notification is automatically generated and sent to DCMA Support Points when PQDR is closed.
1200643	PQDR	Remove Base Type Item PQDR View Edit Action Point	Removes obsolete data field "Base Type Item" from PQDR View/Edit Action Point Data page.
1300289	PDREP	Correspondence Drop Down Lists	Removes dashes from the correspondence drop down lists that preceded the users contact information.
1300328	PQDR	842P-Shipped From Data Field	Adds "Shipped From" and "Shipped To" fields to Shipment and Exhibit Tracking Edit page. Shipper may be identified by DoDAAC or CAGE. These fields are in AdHoc for DoDAACs, TAC 2 addresses are defaulted, but TAC1 addresses can be selected, and addresses are editable, too.
1300452	QALI/LOD	QALI/LOD Access	This allows all personnel in the Delegate DoDAAC to access the record
1300466	PQDR	Subcategory	Adds 'Technical Solution Request' and 'OF-380' Medical report to the subcategory drop down selection.
1300525	PQDR	Remove Functions From SQLs	Remove functions (upper, trim, etc.) from SQLs being sent to database from the application. Other than increased performance, no change to the user.
1300672	PQDR	Support Point Suspension Status	Adds a suspension status table to Support Point similar to suspension status table at Action Points. Assists in documenting support point down time.
1300700	PDREP	User Access Privileges	Creates access controls for ADHOC, Batch Updates, Contractor Profile, and Material Profile.
1300804	PDREP	DLA Weapons System Designator Code	Adds the DLA Weapons System Code to the NSN results display. This is so personnel can identify what weapons system(s) an individual item may be utilized on.
1300847	QALI/LOD	QALI Letter	Fixes data entry issues with QALI/LOD Letter
1300928	EZPDR	Hash Encryption	Updates the encryption method for all EZPDR submissions
1300947	RIMS	Add ER Number Field to RIDL Resolution	Add a field to record a seven digit alpha/numeric ER number on RIDL page, resolution section.

1301014	RIMS	Create RIMS Nuc module	Create nuclear Receipt Inspection Management System (RIMS) module in PDREP.
1400005	CAD	CAD Label Update	All references to" Contract Award Data" have been revised to "Contract Award and Delivery Data"
1400039	PDREP	Feedback Edit	Prevents originators Feedback submissions from being altered after they have been assigned for completion. Changes are to be coordinated with the SYSCOM Manager or PDREP Administrator, who then may update Feedback report and coordinate changes with programmers.
1400043	FOP	TL Reject Capability	This will give the TL the option to reject the SP upon review
1400077	RIMS	Carriage Returns	Allow carriage returns/line breaks in blocks which require written explanation for easier readability.
1400080	RIMS	Disappearing back button on RIDL screen	Back button disappears from the RIDL screen after clicking notify individual then clicking cancel on the notify screen.
1400105	RIMS	RIMS Cancel Status Functionality	Cancel status should completely lock the record from any/all edits.
1400108	RIMS	RIMS MIR Report	Need to add a line break, comma and/or space to description blocks so fields do not run together.
1400138	FOP	FOP Review Requirement	This extends the FOP mandatory review from 6 months to 12 months.
1400156	RIMS	DoDAAC Specific Record Modifications	Allow a shipyard to only modify their own DoDAAC's records.
1400159	PQDR	Criticality Code Update On PDREP NSN Ref Table	Updates the PDREP CSI Indicator (Criticality Code) based on same criteria on initial Create PQDR page as set for Blocks 1-21 page.
1400168	RIMS	Contract Field Search	Enable contract field to search only on last four digits of contract.
1400181	RIMS	Search Screen - Other DoDAAC's	Add ability to search other DoDAAC's on the NIIN search tab.
1400257	RIMS	Printed Report Colors	Change document background/font on MIR from dark blue to primary green. Change document background/font on RIDL from dark blue to primary red.

1400309	RIMS	RIMS NNPI Login	Provides a way for NNPI users to access (login) to PDREP and RIMS.
1400326	RIMS	Lab Request Font	Make lab request font larger to allow readability when printed.
1400336	PQDR	Reject incorrect RCN Format	PQDR-II rejects non-standard formatted PQDR record control numbers. Email sent to originating system regarding the error.
1400344	RIMS	MIR Rev Level Displayed on Report	Add rev level to MIR report. "Rev x of y".
1400358	Feedback	Feedback Assignments	Updates the drop down list for selection of personnel one can assign feedback records too; removes inactive users and matches organizational DoDAACs to only those organizations could possibly be assigned a feedback for action.
1400416	Search	User Search	Adds column to display whether users are active or inactive on the Search User results web page.
1400417	RIMS	Rotatable Pool	Allow creation of rotatable pool number.
1400418	PQDR	CAGE Code Correction	For Army users, this creates a new field called "Original CAGE" which is populated when the PQDR is closed. This will reflect original (historical) CAGE. The existing CAGE (blocks 9.a and b.) will reflect the most current CAGE Code of the supplier in the event that their CAGE changes due update in SAM.
1400440	RIMS	RIMS Drop Down Lists.	Removed users from all RIMS drop downs that no longer are required.
1400450	CAD	CAD - Pull Unit Price from EDA	Pull Unit Prices out of EDA when pulling Required Delivery Dates.
1400463	RIMS	Doc Number Format	Do not auto-fill DoDAAC as a prefix to the document number.
1400464	RIMS	Increase Data Fields - Blocks 23 & 24	Increase field length of block (23) matl spec/rev and block (24) mfg spec/rev from 25 to 33 characters.
1400466	MIR	MIR Label Update	All references of Material Inspection "Report" have been revised to say Material Inspection "Record".
1400467	FOP	Frequent/Infrequent SP Updates	Changing all references "Frequent" to read "Facility Based" and all references "(IM)" to read "(CM)".

1400485	RIMS	RIMS - DoDAAC on Records	Make DoDAAC field mandatory on Worklist page and add DoDAAC or activity name (or both) to the top of the record page to make it clear to any user which record they are viewing.
1400495	MIR	Search Criteria	The dates used to search for MIRs now searches for the date the MIR was added, not the date the inspection was performed.
1400527	PQDR	Credit Request To Code 01 Letter Req # Validation	Removes requisition validation checks, so that Action Point letter "Credit Request To Code 01" can be sent.
1400537	PQDR	Return EZ PQDR To Originator	Prohibits the return of an EZPQDR to originator after it has been accepted in PDREP. Screening Points must now either cancel/close PQDR after acceptance.
1400542	MIR	Contract Field Number	MIR can now accept 16 character contract numbers for material purchased with a government credit card.
1400546	FOP	SP Attachment after TL Review	After TL reviews the record, clicks "Approve and Archive" comment should read "FOP/SP Team Leader review completed as of this date"
1400551	RIMS	RIMS MIR to PDREP MIR on Open Record	Create icon/process on the RIMS attribute page that transfers the data to PDREP MIR for the current record when the icon is selected. Verify mandatory fields for PDREP MIR and provide error message if mandatory fields are missing. Since final supervisor review will not be signed to provide an inspection complete date, use "today" (the added date) as the inspection complete date. Make icon visible to qas/eng and full access levels and gray out to other roles and when qas/eng signature is null. This provides functionality to upload/create a PDREP MIR when a PQDR is required on an open RIMS record.
1400581	Warranty	PDF Processing	This establishes a compressed email for all PDFs that are processed through PDREP, looks for PDFs created in the EZ application for Warranty and SOR.
1400605	PQDR	842P New Units of Measure	Adds the following unit of measure codes to the drop down lists for Operating Time at Failure, Time Since New, and Time Since Overhaul:' Catapult Shots',' Arrestments', 'Landings', 'Starts', and 'Running or Operating Hours',
1400610	PDREP	Updated Quality Notification Literals	Updates literal used to clarify Quality Notifications from DLA.
1400618	PQDR	Placing TYAD DMISA PQDRs on JWOOD1 Worklist	This moved a number of current PQDRs to QTOBY worklist. This also attaches USER ID QTOBY all PQDRs received via PQDRII sent to Support Point for W90CGG.
1400663	PDREP	Quality Notification	Sends select QN data from the PDREP-AIS to PPIRS-SR on a monthly basis. Also ensures all DLA processed contractor liable PQDRs are forwarded to PPIRS-SR
1400674	Surveys	PPI Indicator	Removes the "Past performance Indicator" field as it is obsolete. PPIRS-SR was not using the field.

1400675	Test Records	PPI Indicator	Removes the 'Past performance Indicator' field from Test records as it is obsolete. PPIRS-SR was not using the field.
1400676	PQDR	PQDR - Used In PPIRS Indicator	Removes the '(M) USED IN PPIRSs:' data field from the PQDR record. This field is no longer used to determine which records go to PPIRS.
1400679	RIMS	RIMS Spell Check	Add spell check functionality for narrative fields.
1400682	PDREP	Windows Compression Report Scheduler ZIP Files	Modifies the PDREP SQL Report Scheduler so compressed ZIP files are created if Excel spreadsheet is more than 5 Mb.
1400685	FOP	TWH Email	Get "This record cannot save" when TWH is trying to email record to 04P.
1400686	PDREP	Request date	Adds a 'Request Date' display to the User Access request List used by PDREP Administrators.
1400692	QALI/LOD	QALI Spell Check	Adding spell check to the QALI/LOD submission page.
1400695	PDREP	Duplicate Email Warning	When updating a User Profile, if the email in the user profile, a duplicate warning is provided to alert the Administrator.
1400711	ADHOC	Date Format	Updates the date format in Excel downloads so they are sortable as a date in the excel file.
1400731	CSI	CSI TWH Name	Corrects problem with the TWH name fault.
1400746	PQDR	COG Validation For Closing Medical Material PQDRs	Removes COG validation process for closing medical PQDRs by DLA Screening Point.
1400755	MIR	MIR Mandatory Field Change	The contract number is now not a mandatory field in MIR.
1400772	PQDR	Function Based Index Updates	Removes indexes from SQLs. Other than increased performance, no change to the user.
1400781	RIMS	RIMS Continuation Sheets	Add ability to create 25 blank lines at once.

1400800	RIMS	Phone Number Mandatory - User Profile	Make the phone number field mandatory in the user profile because RIMS RIDL's cannot be saved if that field is blank.
1400806	RIMS	RIMS NIIN/Contract Search Sub-Tab Highlight	Highlight the selected sub-tab on the RIMS search screen.
1400807	RIMS	Nuc Bit Setting	Allow a user with appropriate access to set their Nuc access to yes or no in the user profile screen.
1400827	HEDRS	Added ADMIN Access Bit	Adds unique access bit for HEDRS application.
1400832	ADHOC	NAICS	Adds NAICS cross reference table to PDREP and links NAICs to ADHOC within CAD records.
1400833	PDREP	PPIRS-RC Ratings	Adds Quality, Cost, Schedule, Performance, and Small Business ratings from PPIRS-RC to the PDREP Contractor Profile.
1400846	SDR	Block originator from changing the "TO" block	Once SDR is submitted, originator cannot change "TO" block until action point returns SDR.
1400847	MIR	MIR Search	When searching for MIRs, and the DODAAC and serial number is known, the date range searched is irrelevant.
1400860	PDREP	Date Format on Worklist	Standardizes the date display on work list to be MM/DD/YYYY.
1400869	SAP	SAP - Column Sorting Missing	Add column sorting functionality to SAP Report List.
1400870	PDREP	FSIP POC	Adds the FSIP POC info to the contractor profile, when there is a FSIP POC.
1400888	PDREP	QA-Admin User Account Revisions	After saving revisions to a user's account, you are now directed back to a blank field to search a new user's account.
1400898	PQDR	Date Format	Updates the date format in Excel downloads so it is sortable as a date, using "dd-mmm-yy" format.
1400913	PDREP	Add Excel Link	Adds a link to down load the user search results to MS Excel.

1400918	RIMS	RIMS Worklist - Document Number	Add the document number field to the RIMS worklist.
1400920	RIMS	RIMS RIDL Requiring Action	Add the ability to filter RIDL's by material level (i.e. QA-1, QA-2, or QA-3).
1400921	RIMS	Create New RIMS Record - Default Action	Change default action to 133.1 when adding a new record.
1400922	RIMS	Cancel Status - Edits Allowed	Change so cancel status does not allows edits to the record.
1400924	SDR	Remove RIC SGA	Block RIC SGA to originators so they cannot submit SDR's to SGA.
1400925	SDR	Block email from originator to @dla.mil	Does not let originator email to @dla.mil.
1400950	SDR	Import	Permit action points to close SDRs in PDREP, if the SDR is an original submission imported from WebSDR. This is so Navy Action points using PDREP can close SDRs when the originator is not a PDREP user.
1400956	SDR	Import	Prevents overwrite of the originators release date and preparation date upon import of DLA WebSDR Transactions.
1400959	SDR	Export	Updates the method of placing an 'owner' RIC in the exported SDR files to WebSDR.
1400962	RIMS	Phone Number Extension	Change code to look at extension field vs. last four digits of phone number for extension because all of Pearl's phone numbers extensions are defaulting to 8000 because that is the last four digits of their phone number. E.g. (808)473-8000 ext xxxx.
1400963	RIMS	Incorrect Date/Time Stamp	Record needs to reflect the local time of any edits to that record.
1400964	RIMS	Status History Information	Add user code for each change in status to status history display.
1400967	PDREP	PDREP Search Worklists	Search criteria, what the database is searching, and the results column title are all the same information.
1400973	SDR	Default SDR problem code to code 7	When problem code is null, set the problem code to 7.

1400974	SDR	Import	Updates the COG and SMIC upon import of WebSDR transactions for SDRs.
1400980	SDR	SDR-Action point access	Display action point link when originator release is not null.
1400982	SDR	Import	When importing an acknowledgement from WebSDRs DLA transaction Services group (SGA), the action point activity information is no longer updated with DLATS information.
1401005	PDREP	Contract Award data	Removes the Days Late column from the contractor profile. Corrects issues where more than 3 years of MIR was being calculated and displayed up to ten years.
1401008	CAD	Business Rule Update for Imported Records Contract delivery Records	Permits data from WAWF, EDA, and other external sources to update existing records already in PDREP, even if there are 'minor' validation errors with the imported data. Valid data is imported and invalidated import data is ignored from the external source as long as the resulting data in PDREP meets all validation requirements such as Contract Number, CAGE, DoDAAC, FSC, .and dates.
1401016	SDR	Attachment parameters for SDR to align with DLM	Complies with the DLMS attachment rules.
1401038	RIMS	RIDL Indicator of Counterfeit Material or Fraud	Add a yes/no check box to the RIDL page, below the condition block, to the right of or below the inspection complete block. "Is counterfeit material or fraud suspected?" default to no, lock with condition.
1401059	RIMS	Lab Sheet Additional Lines	Adds more lines to lab sheet and allows printing of 15 lines per page.
