

**PDREP Publish – 24 January, 2015**  
**The following CSRs are included in release Version: 5.0.18**

1100336	PQDR	842P-PQDR-Supplier vs Manufacturer CAGE	842P - Differentiates between the Vendor (Contracted Supplier) and the Manufacturers CAGE by having unique fields for each. This eliminates the check boxes for the single CAGE field. Manufactures CAGE remains on the SF-368 and Vendor (Contracted Supplier) CAGE to be displayed on Supplemental Data Sheet. For backwards compatibility, current CAGE should remain as the Vendor (Contracted Supplier) and any records where Manufacture's CAGE indicator is selected will be copied to Manufacturers CAGEs field.
1100437	PDREP	Primary Key Edit Function	Enables PDREP administrators to update the primary key of any PDREP-AIS report control number.
1200203	PQDR	Exhibit Request Letter Addresses	This pulls both TAC 1 and TAC 2 addresses from DLA and offer the user a choice of which address to include in the Support Point Exhibit Request Letter.
1200579	PDREP	CAR Search	Corrective Action Requests (CAR) was added to the results of the PDREP Search tool.
1200650	PQDR	EZ-PQDR Accept/Reject Message	Saves the email message words entered on acceptance or reject on the EZ PQDR History page.
1200863	PQDR	PQDR-EZ Preview Instructions	Changes EZ instructions for PQDR Reject.
1300272	PQDR	Email Distribution Changes	<ol style="list-style-type: none"> <li>1. Removes the limit of three distribution lists per user.</li> <li>2. Makes e-mail distribution list titles editable by user.</li> <li>3. Displays individual distribution lists for "add email to/cc" selection lists.</li> </ol>
1300313	PDREP	Batch Upload Date Range	Provides a date range to limit the data returned by the Batch Search tool.
1300332	PQDR	842P- Serial and Batch/Lot Number Update	Permits multiple serial numbers to be entered and adds serial number to Ad-Hoc.
1300334	PQDR	842P - Multiple Requisition Numbers	Enables multiple Requisition Numbers to be entered on PQDR Blocks 1-21 page and updates Ad-Hoc to include requisition numbers for a single PQDR.
1300415	ADHOC	Warning Message	Adds a warning message when the user tries to save a query using a name previously used in another application's ADHOC. Permits the use of apostrophes when saving ADHOC query names.
1300713	PQDR	Exhibit Request Form	This adds the Contract Number to the Exhibit Request form.
1300980	SDR	Fix Redirect to New Action Point	Drop down box will start at select so user does not have to transfer out for redirect.
1301033	SDR	LRC/Material Management Code	Populates the material management code to NAVSUP SDR's.
1400016	PDREP	DCIS Report Display	The DCIS down load is made immediately available vice running off peak hours and being emailed.
1400046	SDR	DCN Search	Created a Document Control Number search tool in SDR
1400089	PQDR	Army IQ Mobile PQDR App	Enables submission of PQDRs using IUID markings on material.
1400254	SQD	SQD-"Save/Add Attachment"	Fixed the error occurring when attempting to save or add an attachment in SQD as well as the problem of two records being created for every one that was input.
1400404	PQDR/SDR/MIR	IUID Registry / WAWF Integration	Updates the API used to communicate to with the DoD IUID Registry.
1400450	CAD	EDA Price Updates	Pricing data is now imported from EDA to update CAD records.
1400604	PDREP	APL Link	Makes the APL report control number a link to the APL view in the material profile.
1400651	Access	Password Change	Removes the change password tab from the user profile update. Password changes are performed at initial login and upon account reset.

1400689	PQDR	Originator DoDAAC in "Send To" Message	This places the Originator's DoDAAC in the drop down as a selection for all "Send To" messages and also contains all personnel assigned to that DoDAAC available for selection.
1400694	PQDR	DoD Warranty Fields	Makes additional warranty fields viewable to all levels outside of Army. This is still masked on Army Originator page but viewable/editable at the Screening, Action, and Support Point levels in Army. Fields - Warranty Item Name, FSC, NIIN, Warranty Item Serial Number, Warranty Item Claim Type, Warranty Cage, Warranty Part Number.
1400755	MIR	MIR Mandatory Field Change	Removed the Mandatory (M) requirement from the contract number field.
1400769	SPQ	Remove Obsolete Field	Removes obsolete field, Email indicator, from the SPQ, add, edit, and view web pages.
1400774	Survey	Remove Obsolete Field	Removes the obsolete field, quality indicator, from the survey, add, edit, and view web pages.
1400850	PQDR	DLA Screening Point	Automates the selection of DLA Screening Point based on NIIN lists provided by DLA on a monthly basis.
1400862	PQDR	Retraction From DLA	Sends an EBS export transaction when Screening Points retracts a PQDR from DLA Action Point (prior to Action Point Acknowledgement).
1400944	PDREP	PDREP- LOGSA Interface SFTP Export	Sends four Army PQDR reports to LOGSA via SFTP daily to LOGSA; reports are AMCOM FY PQDRS, JML FY PQDRS, TACOM FY PQDRS, and TOBYHANNA FY PQDRS.
1400975	RIMS	RIMS Search Field	Adds material search tab to search screen.
1400985	PQDR	PQDR-842P Screen/Action Pt Rebuttal Code	Adds Rebuttal Code Field (as per ADC 1007C) to Screening/Action Point correspondence pages.
1400994	PQDR	Army EZ PQDR Java Verification Issue	Delays Screening Point verification in EZ when saving draft. This should only be done when submitting PQDR and stop Java verification issue.
1401008	CAD	Import Rules Updated	Permits transactions from WAWF, EDA, MOCAS and other contract or invoice systems to update PDREP with data that passes validation and rejecting data that does not pass validation. Previously, the entire transaction was rejected if there were any invalid data from the external system.
1401034	PDREP	Label Update	Updates the 'Facility Surveillance Inspection Plan' label on the Contractor Profile to read 'Surveillance Plan'.
1401036	PQDR	Delete Attachments	Reinstates rules to delete attachment for only the user that uploaded the attachment.
1401083	RIMS	Contract Number for Stand Alone RIDL	Create Stand Alone RIDL tab allowing creation of new Stand Alone RIDL.
1401085	RIMS	Stand Alone RIDL Changes	Adds status field to the stand alone RIDL on the Who Has Next Action screen similar to RIDL displaying RIDL status and contract number on the Requiring Action Worklist
1401111	SDR	Attachment Warning	Adds warning on types of Attachments allowed by Web-SDR
1401129	RIMS	RIMS Contract Search Tab	Adds Call Number to Search screen
1401134	RIMS	RIMS Adhoc Tab	Creates Adhoc tab within the RIMS application.
1401136	PQDR	842P Data Fields	Adds the following data fields to PDREPs PQDR data structure: STANDARD_REPORTING_DESIGNATOR (VARCHAR2(15), REFERENCE_DESIGNATOR VARCHAR2(10), OPERATIONAL_IMPACT_CODE (CHAR10), MMAC (CHAR2), EXHIBIT_TIRING_DATE DATE(7), EXHIBIT_RECEIVED_QTY (NUMBER(7)), EXHIBIT_SHIPPED_BY_WH DATE (DATE(7)), EXHIBIT_EXTENDED_HOLD_DATE (DATE(7)), EXHIBIT_HOLD_DATE (DATE(7)), EXHIBIT_FOLLOW_UP_DATE (DATE(7)), QDRUII.ENTERPRISE_IDENTIFIER(CHAR(6)). The fields are non-editable as there are no PDREP user requirements to add the fields to any web page. The data fields are only used capturing transaction data and when sending new transactions to ensure completeness of the data set.
1401145	SAP	SAP Report Search	Will have the BACK button bring you back to the search results, not the search menu.
1401158	FOP	Accept Special Characters	Adds functionality to FOP to allow special characters in email addresses
1401164	Access	User Access Request Form	Adds the ADHOC search tool check box on the User Access Request Form.
1401165	PDREP	DoDAAC Lookup	Adds a DoDAAC look up button next to the DoDAAC field on the Contractor Profile.
1401184	RIMS	RIMS Project List	Updates projects dropdown list displaying both boat number and name.

1401187	SDR	Rationalize Duplicated Fields	Combines the use of PR-Number and Purchase Order Number; previously one was used for Web-SDR and the other for PDREP-AIS.
1401196	RIMS	Lost Symbols in RIDL	Adds ability to use "<>" symbols in RIDL text boxes. They can be saved in the field but do not display in the report currently.
1401199	MIR	MIR-Specification Tab	Moved the MIR Specification report out of QA Admin so all users can access it. Moved the Specification tab out of the general MIR location and into QA Admin so users cannot edit existing MIR Specifications.
1401221	SDR	SDR-DLA Email Warning	Adds the word "NOT" to warning
1401238	SDR	EZ MIR / EZSDR Modify Action Block	When converting EZMIR to EZSDR will allow user to modify action block
1401258	PDREP	Serial Number	Increase the size of the serial number (aka Report Control Number) field size to accommodate DLA's QPL numbering.
1401264	PQDR-II	BIC Updates	New tables updates based on DLMS changes.
1401265	GIDEP	Codes Added	Adds codes for 'C-Suspect Counterfeit' and 'F-Failure Experience Data' to the data entry web pages and permits GIDEP imports to utilize those codes as needed.
1401269	PDREP	Procedure Update	Updates the query used to generate the DCIS report.
1401281	PDREP	Validation Checks and Email	1. Prevents a .ctr@ email address in the USG email for all except the contractors email address on the user access request form. 2. Email and trigger for sponsor approval updated.
1401300	RIMS	Set Priority by Document Number Screen	Add set priority functionality for incoming material using the document number.
1401301	CAD	CAD-Used in PPIRS	Removed the "Used in PPIRS" option from the CAD module
1401307	SDR	USMC Routing	Have trigger not to allow Web-SDR to move SDR's unless they are 504's
1401308	RIMS	RIMS Worklist/Search Screens Open/Closed	Use the record locked indicator vs. status when searching "All Open" or "All Closed" on the main worklist and search screens.
1401313	RIMS	MAT Data - Number of Currency Decimal Points	MAT value received is now rounded to whole numbers.
1401324	RIMS	Continuation Sheets/Next Action Screens	IE10 Issue: corrected a problem where the save and delete buttons were executed twice when clicking causing error on the delete.
1401326	RIMS	Stock Screening	Adds stock screening functionality.
1401337	RIMS	RIMS - Recalled Status is a Closed Status	Adds Recalled status to list of Record Complete status' (Accepted, Rejected, Partial Reject) allowed/required when entering the supervisor review signature.
1401346	SDR	Display CIIC on SDR's	Displays the Controlled Inventory Item Code (CIIC) on SDR's per ADC
1401355	PQDR	EZPDR Material Return Address	Corrects issue where users are submitting EZPDRs and selecting codes RI and RF for Blk 21.
1401360	PQDR	Remove "Add Additional Information" Link	Removes the "Add Additional Information" link from all base pages. Appending data to the description of deficiency can now be accessed via blocks 1-21 link. "Add Additional Information" link also allows all users access to investigation results, which should only be accessed via the investigation page.
1401371	RIMS	Block 48 Inconsistent Words from Screen to Report	Changes the display of Block 48 (Qty Def) on the report to "Qty Def".
1401385	RIMS	Issues with Editing and Disabling Attributes	Corrects IE10 Issue where the first IAC in the list for a specific record is either edited or disabled regardless of which specific IAC is actually edited or disabled.
1401386	RIMS	Border Issues	Corrects IE10 Issue where printed MIR and RIDL Reports are missing the right hand side of the border.
1401387	RIMS	Description Field Spaces	Corrects IE10 Issue where double spaces are inserted in description fields when saving the record.
1401403	PQDR	EZ PQDR Acknowledgement	Combines Accept EZ PQDR with 842P Acknowledgement to Originator.
1401461	SDR	Save and Resubmit SDR	When an SDR is re-submitted, it now goes out as a New Message to Web-SDR rather than a 45-FOLLOW UP
1401490	RIMS	Supervisor Signing and Locking Concurrently	Modified program so the supervisor signature and locked indicator occur at the same time so they either commit or roll back together.

1401498	PDREP	Logging Error	Corrects a logging error produced when administrators run a manual SQL procedure.
1401502	PDREP	GIDEP Data Entry	Adds DS-DIMINISHING MFG SOURCE to the drop sown selection for GIDEP records.
1401503	PPIRS	PPIRS Data feed	Adds the Detailed Cause Code to the PPIRS-SR data feed.
1401505	PPIRS	PPIRS Data feed	Adds the Contract Award data to the PPIRS-SR data feed.
1500015	RIMS	PDREP RIMS - Contract Number	Expanded stand-alone RIDL Contract Number field from 13 to 14 characters to allow addition of "R" in the 14th position signifying a reworked contract.
1500019	RIMS	Doc & Correspondence # Search - Nuc/Non-Nuc Check	Modified programming to check if user is a nuc or non-nuc when searching document number or correspondence number to ensure a nuc cannot return a non-nuc stand-alone RIDL and vice versa.
1500054	RIMS	MIR Serial Number	New MIR Serial Numbers with 01 vs. 00 for QA-A material. E.g. 15134801 vs. 15134800.
