

PDREP Production Publish – 14 May 2016
The following CSRs are included in release Version: 5.0.27

FEEDBACK S/N	PROGRAM	TITLE	CHANGE NARRATIVE
1200904	PQDR	842P-DEMIL and CIIC Code	This displays the demilitarization code and controlled item inventory code on the Screening Points Data Entry page.
1200906	PQDR	842P-Fund Code and Signal Code	This adds the fund code and signal code fields to the Screening Point Data Entry page.
1300258	PQDR	Add Part Number To Parent-Child Requirement List	This adds the requirement that the Manufacturers Part Number match in order to Parent/Child PQDRs for Army Action Points.
1300305	PQDR	PQDR - Label Correction	This updates label to "Last Repair Facility (Cage or DoDAAC)".
1300349	PQDR	Nomenclature Field Size Inadequate	This increases the nomenclature field size up to 150 characters on Blocks 1-21.
1400705	Error Logging	Improve Logging Of REFNSN_FSC Changes	Updates constraints and error logging messages on the FSC reference table.
1500385	Error Logging	Improve Logging Of PQDR Database Changes	Updates constraints and error logging messages on the PQDR tables.
1500459	PQDR	Multiple Serial Numbers	This reconfigures the display of Serial Numbers such that when there is only one serial number it is displayed on the SF-368 and if there are multiple serial numbers, displays "See Below" and places the serial numbers on the Supplemental Data Sheet.
1500460	PQDR	842P 1007D - Screening Point Reopen PQDR Page	If a PQDR is cancelled (Closing Code CX), then the PQDR may not be re-opened.
1500669	Search Tool Buttons	Disable buttons after first click	All Search tool buttons disable after clicking the first time to prevent repeat query's potentially slowing performance. Buttons re-enabled after results returned and complete. Bulletin Search , CAGE Search , DODAAC Search, DUNS Search and DUNS lookup Search, Feedback Search, FSC Search, GIDEP Search, Level 1/SubSafe Search , NSN Search, Qualified Product List Search, Requisition Search, Routing Identifier Code Search, User Search, and UII/Warranty/SOR Search.
1500675	User Access Request Form	Updated form	Updates selectable applications. Removes Batch Upload and NASA Report. Batch upload permissions are provided to individuals once their Batch Upload files are validated for format. NASA report data included on standard profiles.
1500680	PQDR	"Create New PQDR" Tab Appears w/o Orig. Access	This removes Create PQDR and Clone PQDR tabs for users with PQDR screening, action or support point, but not originator access. This also adds a "View Only" access level.
1500692	PQDR	Improve Error Logging for Web Service	Updates constraints and error logging messages on the Army's ARISE web service.
1500836	PQDR	842P 1007D - Correspondence To Originator	This removes "Send Originator an Acknowledgement of Receipt", "Send Exhibit Request to Originator", and "Send Interim Reply to Originator", from "Choose Correspondence Type:" drop down list on Send Message to Originator Page when using the In the "Send Message To" at the bottom of the Originator, Screening, Action, and Support Point pages.
1500867	RIMS	MAT DMI Value Update	Corrected value received calculation when using MAT data of number of units and price per unit.
1500955	PQDR II	DLA's Action Point Closing Codes	Prevents PQDR closing codes from being incorrectly changed by external IT systems on import of data. When the Action Point is in PDREP and the external Screening Point is not in PDREP, the PDREP action points closing codes may not be changed.

1500969	QALI	Narrative Field	Changes the narrative field to hold up to 1000 characters.
1500978	Feedback	Email	Adds the developer assigned to the email addresses when feedback updated and includes notification at closing or cancel dates as appropriate.
1501128	PQDR	PDREP Update/Failure Notification Emails for DLA EBS	This adds NIIN Update/Failure notification emails that are currently sent to the bsm.pqdrs@dla.mil mailbox. This also changes distribution via appropriate DLA supply chain mailbox according to the FLIS NIIN listing: DLA Aviation (SC0400): dlaaviationpqdrs@dla.mil DLA Troop Support (SC0500): trpsptpqdr@dla.mil and DLA Land and Maritime (SC0700): bsmpqdrs@dla.mil .
1501416	SDR	SDR View Tab	Adds hyperlink on view tab to show NIIN search for users. (NAVSUP)
1501454	SDR	WebSDR Interface	Prevents action code 103 transactions from changing the action point DoDAAC on import form web SDR.
1501516	SDR	SDR Type Code	Permits action point to change shipping and/or packaging status (NAVSUP)
1501551	Report	NASA	Deletes obsolete NASA report. Data now appears on standard contractor profile.
1501555	Main Menu	Date	Updates the date format at the bottom of the Main Menu.
1501562	RIMS	Add Duration Field to Rims Status History	Added a field to status history table that calculates and displays the duration in days that a record was in the recorded status.
1501578	Profile	User Profile Logo Selector	Updates the logo save procedure when user changes their letterhead logo used on letters.
1600044	RIMS	Unlock Error	Corrected functionality to prevent user editing records for which they should not be able to after clicking "Yes" when the application asked if the user needed more time after the application was idle for 27 minutes.
1600060	PQDR	842P 1007D - Correspondence To Screening Point	This removes "Send Screening Point an Acknowledgement of Receipt", "Send Interim Reply to Screening Point" from "Choose Correspondence Type:" drop down list on Send Message to Screening Point Page when using the In the "Send Message To" at the bottom of the Originator, Screening, Action, and Support Point pages.
1600061	PQDR	842P 1007D - Correspondence To Action Point	This removes "Send Action Point an Acknowledgement of Receipt" from "Choose Correspondence Type:" drop down list on Send Message to Action Point Page when using the In the "Send Message To" at the bottom of the Originator, Screening, Action, and Support Point pages.
1600062	PQDR	842P 1007D - Exhibit Received Letter Update	When the PQDR is not closed, this changes the PQDR status to "A7-Exhibit Received". This changes the Exhibit Status to Open. When at Support Point, this updates the Support Point Due Date and CMO Suspense Date when letter is issued.
1600067	SDR	SDR History	Adds entry into history for SDR cancellation. Reason for cancel in correspondence.
1600069	RIMS	Data Entry Errors	Added coding to redirect the user to the Worklist, if the user changes the record number.
1600086	PQDR	842P 1007D - Screening Point Closing Screen Update	The Screening Point "Close this PQDR" page is changed to allow Closed Date to be entered for all screening points, the Audit Date to be entered for AMCOM Screening Points and also re-labels the second audit date block to Action to Screening Point Date.
1600118	RIMS	Rev Level Added To Status History Display	Added revision level associated with each status history line item in the status history tab when clicked.
1600132	RIMS	Qty Insp (Block 32) Check	Validates the Qty Insp (Block 32) is equal to zero or greater than the Lot Size (Block 28) in the Attributes screen. Displayed error message if so.

1600136	RIMS	Welding Request Sheet	Populated Procedure block (27) from MIR screen.
1600140	RIMS	RIMS Priority Gives Error Message	Corrected error generated ("Record not found for selected document number") after the first document number, associated project, need date, priority, etc. were entered and saved....and another document number was entered and tabbed out of the field.
1600166	RIMS	RIMS Specification Search - Add QA Level	Added QA Level as filter option to the RIMS Search/Specification Search tab.
1600180	RIMS	Welding Lab Request	Changed welding lab request from hard coding dropdown list to allow user to type in the revision level.
1600227	Ad Hoc	Ad Hoc Reports	Add Code to allow apostrophes in email addresses when sharing and deleting an Ad Hoc Report
1600247	QALI	Remove Attributes	This will remove Attributes 61, 62, and 64
1600248	QALI	Reconsider Feature	When reconsider is activated, the QALI sends an email.
1600249	QALI	Recall Feature	Permits recall of QALI at any point in process.
1600250	QALI	QALI Fields	This will provide the Narrative, Percentage, and status fields to be editable.
1600251	QALI	QALI Work List Sections	This will create new work list sections Pending, In Process, Reconsider, Acknowledge, and Complete
1600253	QALI	QALI/LOD Attachments	Provides attachment's options for QALI correspondence.
1600255	SDR	SDR Originator	Update Closed Date when user clicks the Close SDR Record Button
1600266	PQDR	842P 1007D - Close PQDR Page - Defect Indicator	For PQDRs where Action Point is not in PDREP, this enables the Defect Indicator to be selected by Screening Points if not selected by the Action Point.
1600267	PQDR	842P 1007D - Screening Point Closing Support Update	This removes "Send Support Point Notification of Retraction" from "Choose Correspondence Type:" drop down list on Send Message to Support Point Page when using the In the "Send Message To" at the bottom of the Originator, Screening, Action, and Support Point pages.
1600280	SDR	SDR Emails	Remove SDR left menu, add back buttons
1600281	User Request	User Request Error Messages	Adds warning message when user submits a user access request for a user with a duplicate email address.
1600292	FOP	Typo	Corrects spelling from 'Northrup' to 'Northrop'.
1600331	SDR	Worklist	Highlights the SDR at 45 days at action point for (NAVSUP) on the worklist.
1600332	SDR	Rebuttal Tab	Must have remarks to rebuttal (NAVSUP)
1600344	PQDR	NAVSUP Open PQDRs	This updates access privileges to the NAVSUP Menus to ensure correct access to NAVSUP report.
1600364	FOP	Archiving	Creates an archive to track data changes/updates in the FOP module.

1600370	RIMS	RIMS Expediter Role - Priority Remarks	Allowed Priority Remarks text block to be edited by Expediter Access Level.
1600401	RIMS	RIDL Text Box Character Space Printing Problem	Changed coding to handle a space at the end of either the RIDL Condition or Resolution text box so as to avoid java printing error.
1600407	PQDR	Update Force Promote Page	This adds fields that were made non-editable to users on the screening point close page to the force promote page. Army fields include Master to Screener, Screener to Master, Screening to Action Officer, Action Officer to Screening, Action Officer to Action, Action to Action Officer. Support Point Release Date added for all PQDRs.
1600408	SDR	Closed Date	Put closed date box on SDR splash sheet (NAVSUP).
1600425	SDR	SDR Action point drop down	Only the action point appears upon redirect in the drop down (USMC).
1600442	FOP	Report Pop Ups	Removes editable url and favorites bar form FSIP pop ups when accessed from the Report page.
1600487	PQDR	PDREP Email URL Incorrect	Updates the URL at the bottom of PDREP email messages and forwarding notices to https://pdrep.csd.disa.mil/pdrep .
1600572	RIMS	Resolution Changed on a Closed RIDL	Changed process to not allow changes to RIDL data after the RIDL is closed.
1600486	RIMS	Ad Hoc	Updates labels on RIMS Ad Hoc for Pre-engineered Indicator, Pre-engineered RIDL Category, and Pre-Engineered RIDL Attribute to the
1600478	RIMS	RIP	Updates RIP 62D to 62E.
1600441	RIMS	RIP	Attributes 02 and 62 default for RIP-5.
1600452	RIMS	RIP	Updates RIP 58I to 58J.
1600434	RIMS	Action and Status Drop Down List	Adds 2301 to the Action Drop Down. Adds TGI and DR., Hold and Certs to the Status drop down.
1600422	RIMS	Material Drop Down List	Adds Banding and Strap to the Material Drop Down list.
1600413	RIMS	Ad Hoc	Adds Name Insp Complete, Name Sup review, Name Eng Review, to Ad Hoc. Updates Inspector Name Assigned.
1600375	RIMS	Responsible Code Drop Down List	Adds 2310 and 52 to the Responsible Code drop down.
1600322	RIMS	Priority 1 Drop Down List	Updates the priority I, to be Q instead.
1600368	RIMS	Ad Hoc	Adds Priority Remarks to the Ad Hoc.
1600314	RIMS	Ad Hoc	Adds Action Complete Date to the Ad Hoc.
1600262	RIMS	RIP	Updates RIP 3F to 3G and 7N to 7P.
1600203	RIMS	Status Drop Down	Adds MIF to the status drop down.

1600178	RIMS	Block 14	Adds Marker and Joint to the drop down list.
1500563	RIMS	MIR Update	When RIMS records are transferred to MIR application the status is updated.
1600376	RIMS	Metric Drop Down List	Updates drop down list with "WRONG CRIP," "NON-TECHNICAL JML ERROR," "INCOMPLETE/INCORRECT GEN MATERIAL," "SHELF LIFE ERROR," "INSUFFICIENT TOD__USE REMARKS BLOCK," "NOMENCLATURE ERROR."
1600279	RIMS	Inspection Process	Updates "13" to read "1.13".
1600541	RIMS	Inspection Process	Updates RIP 7P to RIP 7Q and RIP 44I to RIP 44J.
1600585	RIMS	Ad Hoc	Changes "RIDL Condition Resolver Date" to "RIDL Resolution Resolver Date".
1600458	RIMS	RIP	Updates RIP 58I to 58J.
1600511	RIMS	Inspection Procedures Drop Down	Removes obsolete Inspection Procedure drop down list with most current inspection procedures.
1600512	RIMS	Inspection Procedures Drop Down	Adds new Inspection Procedure drop down list with most current inspection procedures.
1600679	RIMS	Drop down	Adds "Thermowell" to the Block 14 A drop down.
1600684	RIMS	Ad Hoc	Adds "Quantity Accepted to the RIMS Ad Hoc data field selection list.
1600541	RIMS	RIP	Updated RIP 47L to 47M.
1600541	RIMS	RIP	Updated RIP 7P to 7Q and 44I to 44J.
