FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1000107	PQDR	PQDR Search	Updates the navigation between the web pages on the "NIIN/CONTRACT SEARCH" ,
1200911	PQDR	842P-Credit Fields	This adds new field "Party To Receive Credit" if different from originator with other credit information
1200977	PQDR	842P-Shipping Instructions	This adds a new editable block "Shipping Instructions". This also updates labels "EXHIBIT TRACKING" to "SHIPMENT TRACKING" and "SHIPMENT NO" to "EXHIBIT TRACKING NUMBER".
1300329	PQDR	842P-Exhibt Status	This adds Block 19 "Current Disposition of Deficient Item" to the exhibit tracking page
1300418	PQDR	1348	Permits users to delete their created DD Form 1348s.
1300576	PQDR	842P 1007C – Closed Status Codes Update	This makes PQDR closing code "CE-ENHANCEMENT" selectable and "'CQ-EXHIBIT RETURNED/INVESTIGATION CONDUCTED" non-selectable.
1300767	PDREP	Cyber Security User Access	Updates the user password format for auto generated passwords used when resetting passwords.
1400984	PQDR	842P-SCAC FIELD	This adds new field Standard Carrier Alpha Code (SCAC) in the shipping record.
1500489	PQDR	Manufacturer and Vendor CAGE Descriptions	Clarifies the difference between a vendor and a manufacturer on the PQDR.
1500502	SAP	Reports	Enables emailing SAP report with attachments.
1501114	PPIRS	Interface	Ensures contractor provided MIR records are not sent and used in PPIRS.
1501218	PQDR	Exhibit Not Required Letter	Updates verbiage on the DCMA exhibit not required letter.
1501386	QALI	RCN Display	Add the RCN# to display in the printed version of the QALI.
1501494	CAR	Create New CAR Tab	Removes the Add new button from the search page and adds a Create New tab to standardize the module.
1501495	QALI	Create QALI Tab	Creates a tab for submitting a new QALI/LOD, and removes the Add button from the search page
1600032	PQDR	Deselect Attachments	Adds deselect option when adding attachments to letters.
1600035	QALI	Team Code	Adds Team Code (DCMA TEAM) to the QALI
1600093	SAP	Create New SAP Tab	Removes the Add new button from the search page and adds a Create New tab to standardize the module.
1600150	SDR	PDF SDR	Permits users to view SDRs via PDF.
1600214	RIMS	Logic for QA Blocks	New logic for QA review blocks
1600252	QALI	Contract Number	Enables multiple contracts and line items to be added to a QALI.
1600257	RIMS	Exhibit Tracking	Adds exhibit tracking to the RIMS application
1600328	SDR	EZ SDR	Removes EZSDR submission from the EZPDR Application.
1600366	RIMS	New display under	Shows the user who last changed the priority on a record and the date of the change

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
		priorities	
1600380	RIMS	RIMS Priority Report	Adds new tab under RIMS search to generate priority report in support of work management.
1600420	PQDR	Notice of Defect Letter	Updates verbiage on the DCMA notice of defect letter.
1600456	Survey	PDREP-eTools SURVEY Web Services	This repairs an error in the e-Tools Survey web service. No user changes.
1600461	PQDR	Personnel Drop Down Selectors	Removes personnel that have deactivated accounts from drop downs in PQDR
1600532	PQDR	Contract Delivery Order Number	Updates the contract delivery order number display.
1600601	FSC Search	FSC=0000	This removes '0000' as an FSC from all records in PDREP-AIS and updates them with '9999'.
1600706	MIR	Create SDR from MIR for SDR NON-Originators	Hides the "CREATE SDR" link in MIR for user that do not have SDR originator access.
1600707	MIR	Create SDR from MIR for PDR NON-Originators	Hides the "CREATE SDR" link in MIR for user that do not have PQDR originator access.
1600854	FOP	Attachments	Updates access privileges to permits DCMA QAR to edit/delete attachments
1601049	QALI	Reconsider Flow	Corrects issue with the reconsideration flow on the QALI.
1601103	PQDR	842P/ADC 1007C – Credit Code Updates	This updates the Credit Codes as per ADC 1007C.
1601108	PQDR	842P/ADC 1007C - Exhibit Distorbution Codes	Adds Exhibit Distribution Codes to PDREP-AIS tables. Not displayed only stored in background.
1601109	PQDR	842P/ADC 1007C – Unit Of Measure Codes	This updates the unit of measure literals to ADC 1007C.
1601147	PQDR	Attachment File Size	Add the File Attachment Size to the Correspondence Display
1601375	PDREP	Cybersecurity PKI Server	Redesigns the PKI server to pass encrypted hash code vice urls.
1601403	SDR	Action Point Release	Add a 'Send Final Reply' button that Auto-populates Action Point Release Date, displays message that Final Reply will be sent to the originator.
1700006	RIMS	Save status button fix	Prevents a new line from being generated on the status history page after the save status button is clicked on a RIDL or on the attributes page
1700126	SAP	File Storage and Links to Process Checklists	Adds a tab with links to the SAP checklists and procedures.
1700142	PQDR	New Sub-Categories for Army PQDRs	ARMY PQDR ONLY. Limits sub-category Codes used the Army when submitting a PQDR.
1700186	PQDR	Symptom Code	ARMY PQDR ONLY. Creates symptom code drop downs.
1700194	Contract Awardand delivery data (CAD)	PDREP-MOCAS CAD Web Service	This repairs an error in the MOCAS CAD web service. No user changes.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1700271	SDR	SDR Attachment View	Permits users with SDR view access privileges to also view SDR attachments.
1700275	SDR	Automated Workload Distribution	Creates automated workload distribution logic for NAVSUP Action points.
1700294	QALI	QA Code	QA CODE field size increased.
1700299	PQDR	PQDR Originators	ARMY PQDR ONLY. Adds a credit recipient on the originator web page.
1700300	PQDR	MWO/ECPS Data Field	ARMY PQDRS ONLY. Enables action points to identify system change orders.
1700303	Warranty	Search	Changes the validations required when searching for warranty data.
1700354	RIMS	Fixes save on MIR add/edit page	Allows users to save INSP PROC and ENCL before creating MIR Serial Numbers
1700356	SDR	Actin Point Remarks	Include the name of the Action Point in remarks. Also create a history of the action response code entered with remark. Only for non-Marine Corps users because their fields are completely editable.
1700399	Batch Load	Batch Load File Name	Updates the file name display used on upload and in the email sent to the user, to match the file name uploaded vice a default filename.
1700426	PQDR	Not receiving email	Resolves intermittent issue affecting some users not receiving emails.
1700430	PPIRS	CAD	Addes part number column to PDREP tables for additional compilation of data used by PPIRS. Adds part number to CAD ad hoc.
1700465	FOP	FOP View SP error	Corrects view SP error.
1700471	SDR	Send Correction Transaction	Corrects history display for when a 'Correction' vice 'Follow-up' took place.
1700481	POC module-Points of Contact Tab	PDREP 6.0 Bug Fix	These repairs errors associated with the POC page and clearly defines which mandatory fields need to be completed by user.
1700483	User Profile	PDREP 6.0 Bug Fix	Repairs errors in user profile form with secondary organizations and also change which field carries to signature block of correspondence.
1700494	PQDR	PQDR view only access	Fixes view only access should not have the capability to submit a PQDR.
1700496	PQDR	PQDR FSC lookup 404 error	Corrects FSC Look Up button error.
1700533	SDR	USMC Material Manger	Removes Material Manager from Originator Page for users that are not USMC
1700544	QALI	Attributes	Corrects issue with cached attributes.
1700549	RIMS	Lab request and continuation sheet fix	Fixes the save button on the lab request sheet, and sets the serial number length on the continuation sheet to 25 characters
1700574	RIMS	Cancelling record fix	If attributes exist, must cancel record through the attributes page
1700580	RIMS	Fixes Nuc attachment rights	Prevents certain roles from adding attachments to Nuc records
1700585	RIMS	Field addition to RIMS Search	Add choice "ALL" to DoDAAC selection dropdown for RIMS NIIN/Contract Search and Document/Project Search
1700591	QALI	Title Bar	Updates QALI Recall Title to read "QALI/LOD – RECALL"
1700620	RIMS	Cancelling record fix	Saves the remarks entered when signing as the supervisor if the remarks were not previously saved.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1700674	SQD	Activity Code	Fixes issue with the Activity Code display.
1700709	PDREP PPIRS CPARS	Cybersecurity NNPI-PKI SERVLET	Disables the URLs for SAML compliance.
1700729	QALI	Dynamic Queries	Removes Dynamic Query for cybersecurity
1700770	PDREP	Cyber Security 15 Minute Timer	Updates Time Out Method to extend user session uniformly across all PDREP-AIS applications. User only needs to click that they need more time vice requiring a save or web page reload action.
1700788	FOP	Work Flow	Updates FOP workflow to match DCMA process
1700790	FOP	Email	Rejects FOP email defaults to send to QAR listed on the QALI.
1700791	FOP	Status	Returns rejected FOP to the QAR
1700792	FOP	QAR Access	QAR access privileges updated to manage QAR to updates to FOP records
1700796	PDREP	Cyber Security Error Log	Updates the time stamp in the logs used to track application performance within the AIS.
1700797	RIMS	RIMS Code Update	Applies Dreamweaver templates to RIMS JSPs for Fuzz testing.
1700798	RIMS	RIMS Code Update	Updates the all RIMS templates for cybersecurity..
1700825	SAP	Search	Fixes issue with disappearing search button.
1700826	SAP	Alert	Fixes issue with the Alert check box and Alert creation.
1700827	SDR	SNAVY bulk Workload Reassignment	Updates the NAVSUP SDR work load distribution logic.
1700829	SDR	ADC 1174 Implementation	Adjusts the exported 842 transaction to WebSDR to reflect the submitters DODAAC vice the current default N45112. Default previously required by earlier DLMS's.
1700835	SDR	ADC 1181A Partial Implementation	IAW ADC 1181A adds the new vendor liability codes (DLA Cause Codes) to the action point data entry pages so the data may consumed by PPIRS-SR NG.
1700844	FOP	FOP Templates	Updates FOP for cybersecurity FUZZ testing.
1700855	GIDEP	GIDEP Agency Action Notice (AAN)	Updates PDREP GIDEP Send AAN Functinality
1700857	SURVEY	SQL Error	Fixes error caused by apostrophes in survey data.
1700874	PDREP	PPI Indicator	Removes the obsolete PPI Indicator from the data base and application for MIR and CAD.
1700886	SDR	ADC-1126 Action Codes Added	Adds new action codes listed in ADC 1126.
1700887	Web Service	DCMA PQDR Web Service	This repairs the JAVA Archive file and export web service. No user changes.
1700888	RIMS	SA RIDL Field Additions	Adds COG, FSC and SMIC as fields to SA RIDL
1700923	Search	DODAAC Search	Fixes the Invalid Activity error
1700924	Search	Cage Code Search	Fixes the Invalid Activity error
1700960	Contractor Profile	PPIRS URL	Updates the PPIRS-SR NG User Guide URL displayed on the PDREP Contractor Profile
1700981	L1	LEVEL 1 ERROR	Fixes the L1 Subsafe error when printing
1701017	SDR	LSN	Adds the Local Stock Number (LSN) to the PDREP Database and import from WebSDR. Adds local stock number

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
			to the SDR Ad Hoc.
1701022	RIMS	Save status button fix 2	Fixes bug occurring when status was saved immediately after a new revision is created
1701023	RIMS	RIDL Condition Entry Fix	Prevents user from entering a RIDL condition with only spaces. This will solve the issue of malfunctioning RIDLs
1701036	FOP	FOP Email	Change references to 'FSIP' to 'FOP' in FOP emails.
1701040	SDR	ADC1260	Updatres Discrepancy Codes: P116 PRESERVATION INADEQUATE OR INCORRECT RESULTING IN ITEM CORROSION and P216 PACKAGING INADEQUATE OR INCORRECT RESULTING IN ITEM CORROSION.
1701051	RIMS	REV 0 View Error	Fixes bug occurring on revisions to MIRs of QA , when toggling between revisions on a closed record..
1701065	RIMS	Locked SARIDL Message Not Showing	Corrects Red Banner ("This Record Is Locked by [USER]" is not showing up for engineer-access users. Only applicable to SA-RIDLs.
1701085	PQDR	Force Promote	ADMIN USERS ONLY: Updates the save action method.
1701089	RIMS	Worklist Sort	Permimts users to sort worklist, search and ad hoc output as ascending and descending
1701126	SDR	ADC-1175	Adds Discrepancy Code D301-"Defense Turn-In Document (DTID) for partial weapon lacks missing parts list or certification statement". Implementation is required by November 2017 for DLMS compliance agreed to by NAVSUP SPRC
1701134	SDR	Wrong Item Logic	Validates when a wrong item code is entered there is a wrong item QTY and NSN. Also if wrong item code entered validates the is a wrong item NSN entered and QTY.
1701138	PDREP	Cybersecurity File Attachments	Updates the attachment upload validation process for file type and size.
1701161	FOP	Update FOP Record Status	Move FOP records back to QAR.
1701162	FOP	Update FOP Access	Updates User Access to view only.
1701165	FOP	Update User Admin	Remove s FOP access level that is no longer used.
1701197	RIMS	Block 33	Prevents users from signing an attribute without filling in Block 33 first.
1701210	MIR	Certifying Activity Desginator (CAD)	Updates save method for the MIRs CAD data entry field.
1701238	SDR	Action Tracking Number	Makes the WebSDR tracking number on-editable. Only transactins forn WebSDR permitted to update this field.
1701219	Search	Requisition Searh	Fixes view link on requsiton serach page
