FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1100210	PQDR	842P/ADC 1007 - ACTION PQDR RCN	Updates the serial number validation and save method.
1300891	PQDR	EXHIBIT RECEIPTS	ARMY ONLY: Enables the action point/action officer to shipper and receiver. Permits only the shipper to enter shipping dates and tracking info. Only receiver to enter delivery and proof of delivery info.
1401353	PQDR	842P/ADC 1007 - Action Requested Code	Updates the action requested codes to approved 842P DLMS codes.
1401424	PDREP	Main Menu Updates	Continuation of updates requested by the 2015 PDREP CMB to streamline user access and navigation controls on the main menu.
1500116	PQDR	PQDR-Detailed Cause Code	Updates label on the SF368 HTML and PDF from "DEFECT ATTRIBUTE" to "DETAILED CAUSE CODE" to match 842P DLMS syntax.
1500643	PQDR	ADC 1007 - ARMY SCREENER PQDR EDIT CAPABILITY	ARMY ONLY: Permits Army Screeners to edit all info on the PQDR submitted by the originator.
1500971	PQDR	Support Point Suspense Status	Permits DCMA DPRMs to update the suspense status.
1501192	PQDR	SF 368 Display	Updates the SF 368 display of recurring RCNs so they don't take up as much space.
1600404	PQDR	Suspense Date	Updates the logic for updating suspense dates when PQDRs are rebutted from action to support point.
1600527	RIMS	Level 1	When creating a new record, allows the L1 Serial No. type to be selected specifically such as SY MANUF, FACTORY POOL, etc.
1600731	PQDR	DLA Form 1227 Serial Numbers	Updates the DLA Form 1227 HTML and PDF views to show multiple serial numbers, when entered.
1600744	PQDR	ADC 1007C	Correspondence updated to meet ADC 1007C.
1600996	PQDR	2nd Final Letter	Adds 2nd final letter option when the PQDR is reopened and re-investigated.
1601050	PQDR	Blocks 6, 17, and 18	ARMY ONLY: Adjusts the length of blocks 6, 17, and 18 to 75 characters on the army originator page.
1601110	PQDR	842P/ADC 1007 - Exhibit Delivery Requirement Code	Adds new field "Exhibit Delivery Requirement Code" IAW ADC 1007C.
1601146	PQDR	Editable Correspondence	Adds editable correspondence on "NOTICE OF DEFECTS & EXHIBIT RECEIPT LETTERS".
1601199	SDR	Duplicate SDRs	Validates duplicate SDRs with disposition status Reply Code 719 per DLMS requirement.
1601407	PQDR	DLA Form 1227 (PDF) Link Navigation	Updates the DLA Form 1227 link to open in its own pop up window.
1601482	SDR	GSA Bound SDRs	Creates logic to automatically transfer SDRs from DLA, to GSA if sent to Navy.
1700228	RIMS	RIDL	Permits a RIDL to be initiated for a MIR without an inspection procedure selected.
1700293	QALI	View Only	Creates view only access for QALI
1700316	PQDR	Exhibit Quantity	Adds the "QUANTITY OF EXHIBITS RECEIVED" to support point data entry pages and requires entry when

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
		Received Field	material is returned to the vendor for evaluation. Adds the quantity to the support point exhibit receipt letter.
1700409	PDREP	Cyber Security Code Signing	Completion of code signing encryption from previous publishes cycle.
1700479	ADMIN Module - Request Account List	PDREP 6.0 Framework Bug Fix	Repairs two errors in the user request approval form. No user changes.
1700527	Others	User Access DSN Field	User access DSN field is expanded to 8 characters.
1700573	SDR	Invalid SECREP Exchange SDRS Routing	Provides with a warning of "INVALID SECREP EXCHANGE" in the remarks (BLOCK 12). These are SDRS with a "3B" ACTION CODE AND A RESPONSE CODE OF "144".
1700600	FOP	Approval history	Removes the web address bar for the pop up.
1700706	RIMS	RIDLs Search	Corrects issue when searching from an existing RIDL, some RIDLs that show up are from other DODAACs.
1700800	PQDR	PDREP 6.0 Framework Bug Fix	Updates templates on all PQDR pages.
1700820	RIMS	Updating Attachments to Closed MIRs	Allows user to add description/comment to attachments added to closed MIRs.
1700822	QALI	Clone Link	Removes the Clone Link.
1701010	PDREP	External Links	Creates hover over/fly out links on main menu to access external search tools provided by PDREP such as HIS haystack, Pin Point, and WSIT. In support of CSR 1401424.
1701125	SDR	Originator Edits	Updates data validations on SDR originator web pages
1701127	SDR	Credit Card Indicator	Corrects intermittent display error when using the credit indicator.
1701142	SDR	SDR Delete Link	Updates permissions allowing non-management users that created a SDR record to delete an un-submitted SDR.
1701143	SDR	Email CC	Corrects issue when using the CC block when attempting to send email to the originator.
1701171	RIMS	Status	Adds O2 Cleaning as a status in the drop down.
1701176	Report	NAVSUP 874 REPORT	Updates the report label.
1701185	FOP	FOP CAGE Search	Permits search for second tier vendor using a # sign.
1701190	PQDR	Responsible Support Point	Updates the responsible support point access privileges.
1701192	FOP	FOP Ad Hoc	Adds fields to the Ad Hoc search: COMPLEX CRITICAL INDICATOR, ALRE INDICATOR, NON-CRITICAL INDICATOR, NASA INDICATOR.
1701208	RIMS	Updates RIMS Exhibit Tracking Search	Adds search functionality for the Exhibit Tracking data in RIMS
1701232	RIMS	RIMS Ad Hoc	Adds new fields to Nuclear RIMS Ad Hoc.
1701252	PQDR	CAT 1 Justification narrative	Moves the CAT 1 Justification narrative block moved right below the CAT 1 check box.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1701256	PQDR	TYCOM	Autofill's the PQDR TYCOM field based on the PQDRs screening point DoDAAC.
1701259	PQDR	Exhibit Receipts	ARMY ONLY: Hides draft exhibit request letters from originators.
1701260	PQDR	Army PQDR Routing	ARMY ONLY: Automates routing from originator to screening point.
1701263	SDR	Action Point	Updates the method used track the users info captured in the SDR History.
1701264	RIMS	RIDL Search	Updates the RIDL search method to prevent unexpected error.
1701265	FOP	FOP Label Changes	Updates the FOP Labels: Changes - PRODUCTS SUPPLIED TO THE NSEP PROGRAM to PRODUCTS SUPPLIED.
1701269	PQDR	Army PQDR Report	ARMY ONLY: Creates a "TROUBLED PARTS HISTORY REPORT"
1701270	Material Profile	Performance Upgrade	Updates the material profile to execute faster.
1701271	PQDR	EBS Interface - Correspondence	Expands correspondence characters received to 4,000 characters for DLA's EBS system interface.
1701278	SDR	Duplicates	Permits WebSDR imports to create duplicate SDRs in PDREP even though SDRs may have the same requisition number with different NSNs coming from the DSS system.
1701279	SDR	ADC 1181A	Updates the import method to accept new Cause Codes for vendor Liability on SDRs. Deletes cause code when a 151 action point response is also received.
1701287	Feedback	DLA Form 1227 Serial numbers	Adds the ROM, Severity, and Scope to the Feedback Review edit web page
1701289	Interface	eTools Surveys	Correct error on import of Survey data with 'Other' as a category.
1701290	Cybersecurity	Patch	Framework Patch
1701298	SDR	ADC 1181	Creates import of vendor liable SDR data from WebSDR. Creates data transfer to SPRS (Formerly PPIRS-SR NG).
1701301	MIR	MIR RCN to PQDR	Fixes issue transferring the MIRs RCN to the PQDR when creating a PQDR from the inspection record.
1701309	PQDR	ADC 1007C	Adds new field, Exhibit Distribution Status.
1701310	QALI	Drop Down	Removes deactivated and view only access users from the drop down selection for assigning QALIs.
1701315	QALI	FSC	Validates the FSC against the FSC reference table.
1701326	QALI	FOP User Roles	Removes obsolete user roles from user access request form.
1701344	SAP	Ad Hoc	Adds additional Codes and Literals to the SAP Ad Hoc.
1701345	MIR	Ad Hoc	Adds additional Codes and Literals to the MIR Ad Hoc.
1701346	CAR	Ad Hoc	Adds additional Codes and Literals to the CAR Ad Hoc.
1701347	Survey	Ad Hoc	Adds additional Codes and Literals to the Survey Ad Hoc.
1701356	Interface	Error Log	Fixes issue generating an error report when importing DAL Cause Codes
1701358	Cybersecurity	Patch	Memory management update for PDREP-AIS.
1701364	Contractor Profile	GIDEP	Updates display of GIDEP data format on the Contractor Profile.
1701373	SAP	Checklist	Updates SAP checklist #1.
1701384	User Access	Request Form	Updates the No Access method for FOP.
1701386	Interface	IUID Web Service	Updates the IUID web service interface.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1701395	Cybersecurity	Patch	Memory management update for the GFP application.
1701396	Cybersecurity	Patch	Memory management update for the Import-Export Application.
1701403	MIR	UII	Corrects issue when adding unique item identifier to the inspection record.
1701344	MIR	Access	Fixes the view only access level.
1701414	QALI	Save	Updates validations and save method when saving older QALIs
1701412	MIR	Ad Hoc	Improves validation of several fields in the MIR edit page.
1701419	RIMS	Exhibit Tracking Sequence	Changes sequence numbering to correspond with exhibit tracking # vice user request number.
1701413	MIR	Create New	Improves validation of several fields in the MIR add page.
1701433	QALI	Save	Updates the save actin to accommodate legacy QALI records.
1701434	QALI	NSEO QALI	Adds display of contract numbers in QALI.
1701436	QALI	Contract Number	Updates save action for multiple contract numbers.
1701433	QALI	Save	Updates the save actin to accommodate legacy QALI records.
1701440	Access	Forgot Password	Updates the error message when a user incorrectly enters data.
1701442	QALI	Due Date	Updates the Due Date logic on save.
1701444	SDR	Type 8, 9 and R	Type 8,9 AND R SDRS are not permitted to be redirected per approroved DLMS requirmrents.
1701457	MIR	Ad Hoc	Adds Sub vendor Name to the Ad Hoc Drop Down.
1701458	PQDR	HTML Word Wrap	Fixes word wrapping on the PQDR History page.
1701460	QALI	Contract Number Search	Updates the Ad Hoc search for contract numbers.
1701472	Ad Hoc	Share Ad Hoc	Corrects intermittent error caused when sharing an Ad Hoc.
1701473	PDREP	Import-Export App	Automatically runs PQDR data into PDREP every hour from DLAs EBS system.
1701479	RIMS	Priority	Allows supply roles to modify the priority.
1701486	RIMS	Defect Code	Updates logic used to validate the defect code.
1701498	SDR	Closing SDRs	Fixes issue wihtt he 'Close' button.
1701505	PQDR	Credit Fields	Enables screening points to edit the credit data.
1701511	SDR	SDR Email	Updates the email address used in SDR emails to match user vice PDREP help desk.
1701527	EZPQDR	WAWF	Reestablishes the WAWF PQDR web service with EZPQDR.
1701551	RIMS	TRIP Update	Adds TRIP 3-02 to drop down.
1701556	SDR	Workload Distribution Logic	Updates logic used to automatically assign assign action points for NSVUSP SDRs.
1701560	PQDR	Implicit Self-Assignment	Updates the users name and contact info on the history page when they perform any task captured in history.
1701570	PQDR	Change to Army user Profile	Eliminates the need for Army users to log out and log back in when their profiles are changed.
1701581	PQDR	Email	Updates URLs used in letters sent via email.
1701583	DUNS Search	Error	Fixes search button errors.
1701589	Material Profile	Requisition Link	Fixes broken requisition link on the material profile.
1701591	CAR	View Access	Fixes issue with CAR record view only access.
1701598	SAP	CAGE Lookup	Corrects issue with the CAGE lookup when return data to the previous web page.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1701613	RIMS	Inspection Procedure	Changes UREL 0810-902 CH-2 to rev B, removes enclosure 6, and adds CH-3 with enclosure 3.
1701623	QALI	Quality Assurance Specialist	QALI RCN appears in Email Subject line.
1701625	SDR	Army Bound SDRs	Removes logic restricting the DoDDACs used to send an SDR to Army DoDAACs.
1701666	PQDR	PQDR Worklist - Rebuttal	Worklist status displayts now identifies a PQDR Rebuttal.
1701676	PDREP	Multiple Instances	Fixes the ability to open more than one instance of PDREP.
1701687	PQDR	Army Category 1 Justification	ARMY ONLY: Adds radial buttons to select standard CAT 1 justification.
1701697	RIMS	Instructions	Adds NSLC 4355.14C with enclosures 1 & 2 to the inspection procedure drop down.
1701713	PQDR	Email Servers	Updates the method by which multiple email servers are utilized.
1701728	Interface	LIMS	Enables automated import LIMS data files.
1800054	PQDR	SupportPoint Due Date	Corrects issue setting the DCMA support point due date.
