

PDREP Projected Production Publish - 19 May 2018

The following CSRs are scheduled to be included in release Version: 6.0.11

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1100211	PQDR	ADC 1007 – Action Point Due Date	Updates the action point due date update method to match ADC 1007 requirements.
1100306	PQDR	ADC 1007 – Action Point Letter Validations	Updates the action point letter validations to match ADC 1007 requirements.
1100623	PQDR	REPAIRABLE ITEM - BLOCK 12 (NAVY ONLY)	Makes Block 11 "SERIAL, LOT OR BATCH NUMBER" mandatory for Navy when a 7 COG is entered in block 5.
1200301	PQDR	Action Point Notification or ATTACHMENT UPLOAD EMAIL (DCMA Only)	When DCMA QAR uploads a document in support of a PQDR, prompts the QAR to send a PDREP email correspondence to the action point.
1200740	PQDR	ADC 1007 – Label Updates	Updates syntax to match ADC 1007 syntax where possible. ON ORIGINATORS PAGE AND EDIT MANDATORY ORIGINATORS PAGE REMOVE THE "DEFECT ATTRIBUTE CODE", AKA "DETAILED CAUSE CODE" B. ON SCREENING POINT CLOSING PAGE AND ACTION POINT COMPLETION PAGE FROM "CAUSE CODE" TO "BROAD CAUSE CODE" C. ON SCREENING POINT CLOSING PAGE AND ACTION POINT COMPLETION PAGE FROM "DEFECT RESPONSIBILITY CODE " TO "DEFICIENCY RESPONSIBILITY CODE" D. ON SCREENING POINT CLOSING PAGE AND ACTION POINT COMPLETION PAGE FROM "CORRECTIVE ACTION TAKEN" TO "PREVENTATIVE ACTION CODE"
1200910	PQDR	ADC 1007 – Exhibit tracking	Adds editable non-mandatory fields to the SHIPMENT/EXHIBIT TRACKING web page to match ADC 1007 requirements: 1. EXHIBIT HOLD DATE 2. RESPONSIBLE PERSON (AT RECEIVING LOCATION) 3. TRANSPORTATION CONTROL NUMBER 4. TIR DATE 5. ALSO, MAKE THE SHIP DATE AND DOCUMENT CODE NOT MANDATORY. 6. DOCUMENT NUMBER.
1200978	PQDR	ADC 1007 - Exhibit Tracking	Enables exhibit tracking fields to be editable by personnel with matching DODAACs for ORIGINATORS, SCREENING POINTS, ACTION POINTS, AND SUPPORT POINTS. Other personnel have view only access.
1300306	PQDR	Label Update	Updates label on disposition instructions, removing the word NAVSUP as all services have access to the field.
1300242	PQDR	Exhibit Request Update Date	Updates the exhibit ship date on the exhibit tracking summary when the "REQUEST FOR REPORT EXHIBIT LETTER is sent by action point.
1300393	PQDR	Cloning	Updates the cloning method for PQDR.
1400248	PQDR	Timeline	Adds timeline to screening point for Army
1401424 (continued)	PDREP	PDREP Default landing Page and Updated Main Menu Navigation	1. Updates navigation to reduce number of clicks by moving main menu links on the right side, to the left side. Clicking links on left displays module to the right of the left links for first level into a module. 2. Main menu, PDREP Home, displays links to records recently accessed. 3. Ads option to select default landing page when entering PDREP-AIS. Default landing page if none selected by a user is the Main Menu PDREP Home. Default can be set through the users profile link.
1501179	NUC RIMS	Nuclear Supply Action Module (SAM)Feature	Deploys the supply access feature for Nuclear RIMS users. Full BETA testing and training to commence prior to allowing user access in production.
1501183	NUC RIMS	Nuclear ER Feature	Deploys the Engineering Review (ER) feature within the RIMS Nuclear U-NNPI.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1501469	PQDR	DROP DOWN LIST (DCMA only)	Updates the drop down lists so deactivated personnel do not show on DCMA drop down selections
1600709	PQDR	ADC 1007 - Tracers	Changes syntax on correspondence and letters formerly known as tracers to "Request for follow-up" to meet requirements of ADC1007.
1600978	SPRS (OSD)	SUPPLIER RISK: DCMA DATA (SRS)	Forwards SDR vendor data to DOD's SPRS.
1700066	Warranty (OSD)	Old File Removal	Removes old warranty files that have been processed.
1700109	PQDR	ADC1007 - DLA 1227 Links	Removes links to edit the DLA Form 1227 after the DLA Form 1227 Final Reply is sent.
1700589	Attachments	Edit Comments and Description	Fixes error that occurs when an apostrophe is entered in the test fields for Comments or Description.
1700613	PDREP	Session Management / Tracking/Cyber security	Updates tracking of user sessions to monitor user behavior during usage, displays the last 24 hours of records accessed to user on the Home Page.
1700800	PQDR	Cybersecurity	PQDR web Page templates updated. No user noticeable change, changes behind screen.
1700873	RIMS	RIDL	Adds JO/KO, removes DoDDAC, and action complete, limits description and removes closed RIDL check box.
1700895	RIMS	Project List Drop Down	On RIMS Search pages with "Project" as a field, replace the text input box with the project drop down.
1700992	PQDR	Cursor Navigation	Updates cursor movement to the correct next point on Blocks1-21 after data entry.
1701086	RIMS	Quantity Rejected Logic	Updates logic used to prevent record from being signed as accepted, block 42 is greater than zero. Prevent record from being rejected if the block 42 is not greater than 0. Apply this to both Non-Nuclear and Nuclear sides of RIMS.
1701092	RIMS	Remarks Block Signature	Add the Remarks Sheet functionality to Non-Nuclear RIMS. Import all old remarks into the remarks sheet as well as to be sure older records aren't negatively affected by this change.
1701217	RIMS	Resp Code	Add 120 to the drop-down menu in the RIDL Metrics for Resp Code. - Added to DBA List Page
1701254	PQDR	Adds "Not Available" check box for Army PQDRs	Adds "Not Available" check box for Army PQDRs. Note: This already exists on Navy and USMC PQDRs.
1701255	PQDR	Work Done on Part (ARMY ONLY)	Creates a method for originators to describe what they may have done to fix a part, prior to submitting a PQDR.
1701257	PQDR	PQDR Supplemental data	Updates formatting of the PQDR supplemental web page.
1701272	PQDR	Email Correspondence	Adds use of DOD 411 to locate email addresses, and autopopulate email addresses in PDREP-AIS.
1701311	FOP	FOP Email Address	Updates email display in FOP emails.
1701339	FOP	FOP Worklist	Corrects issue on the FOP worklists HTML display.
1701371	FOP	FOP Status	Corrects issue with FOP status display
1701398	SDR	Interface	Updates WebSDR import to account for multiple discrepancy codes.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1701400	SDR	ADC 1198A	Adds new action reply code 611- RE-IDENTIFY UNIQUE IDENTIFICATION AND RETURN TO STOCK
1701402	Ad Hoc	Ad Hoc Sharing	Allows sharing a saved ad hoc with multiple users, at one time vice sharing one at a time.
1701438	PQDR	MATCAT (ARMY ONLY)	Add Code CS-GENERIC AIRCRAFT NITROGEN GENERATOR (GANG)
1701439	RIMS	Realign Block 37	Fixes alignment of block 37.
1701446	PQDR	Program Code	Updates the PROGRAM CODE to be editable/not editable.
1701461	QALI	QALI Transfer	Updates and streamlines the QALI transfer process.
1701468	RIMS	RIMS RIDL	Keep RIDL conditions locked when set as locked. Prevent user from being able to unlock condition by pressing Enter inside a condition when there isn't a resolution.
1701480	RIMS	Set Priority transfer	Updates when a user puts a document number in when creating a new record that had a priority set by the set priority function, the priority literals don't appear until a page refresh occurs or the user returns to the record. The priority code (left hand side) gets brought over, but the name does not until the page is reloaded.
1701482	RIMS	RIMS Error	Fixes error received when attempting to load the worklist without the "To Date" filled in. "From Date", if removed, gives a "normal" kind of PDREP error telling you that the date is not the proper format.
1701483	RIMS	Expand RIDL Condition & Resolution Box Size	Expand the RIDL condition and resolution field size that is visible by 1.5-2x the current size.
1701537	PDREP Search	Broken Link	Fixes link to access eTools CARs after drilling down on the PDREP Search web page.
1701542	PQDR	Disposition Letter	Removes reference to DCMAD1 CH4/1/1 ATTACH 11, ENCL(4).
1701543	Contractor Profile	NASA Data	Removes old data from the report that was out of range of the search criteria.
1701550	PQDR	System Busy Indicator	Adds a more obvious icon to display system busy, after clicking a button or link.
1701561	SDR	ADC 1259	Adds new unit of measure to drop down selector: OY-DRAINED NET WEIGHT.
1701563	SDR	ADC 1217	Adds new action point reply codes: 526 and 527.
1701574	FOP	FOP Team Lead Approval Process	Streamlined FOP approval process.
1701584	SDR	ADC 1203	Adds new action point reply code: 109.
1701635	QALI	QALI Cloning	Updates the QALI cloning process.
1701667	PQDR	Engine Model Update	In Block 18, updates 'YT-706' in Block 18 "Engine Model" to read 'T706-GE-700', See attached.
1701740	Ad Hoc	Feedback Status	Adds a Status indicator field to the ad hoc for Feedback. Based on the completion and cancel date. Completed = Completed date not null, Canceled = Cancelled date not null, else Open.
1701775	Survey	Completion Date	Completion Date validation updated.
1701776	SDR	SDR Work List	Fixes error appearing the system error log related to the SDR work list.
1701777	SDR	SDR Shipping Number	Fixes error appearing the system error log related to SDR shipping number.
1701778	SDR	SDR Exception during work flow	Fixes error appearing the system error log related to SDR flow exception.

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1701782	FOP	FOP Ad Hoc	Adds APPROVED DATE, ARCHIVED DATE, REJECTED DATE, and RETURNED TO QAR DATE, to the FOP Ad Hoc Drop Down.
1800008	Warranty (OSD)	Add Data Elements to Warranty / SOR	New fields added to the warranty search criteria include: NIIN, IUID, ID NUMBER, OEM PART NUMBER; AGENCY SERIAL NUMBER and TAMCN
1800009	Warranty (OSD)	Add Data Elements to Warranty / SOR	Adds data fields to warranty database to support search capability: NIIN, IUID, ID NUMBER, OEM PART NUMBER; AGENCY SERIAL NUMBER; and TAMCN.
1800010	Warranty (OSD)	Warranty Search	ADD THE FOLLOWING DATA ITEMS TO THE LIST OF WARRANTY RESULTS: AGENCY SERIAL NUMBER. SEE FIGURE 2 PG. 6 OF ATTACHED DOCUMENT.
1800011	Warranty (OSD)	Warranty Report Detail View	Adds these data elements to the detail view after Warranty Search: NIIN; IUID; ID NUMBER; OEM PART NUMBER; AGENCY SERIAL NUMBER; TAMCN.
1800012	Warranty (OSD)	Warranty Form Add Data Field	Adds second row with data elements: NIIN; IUID; ID NUMBER; OEM PART NUMBER; AGENCY SERIAL NUMBER; TAMCN
1800013	Warranty (OSD)	Warranty Enterprise User Access	Creates an edit access role for DOD Warranty data.
1800014	Warranty (OSD)	Warranty Activity Log	Adds the activity log to the warranty module for tracking changes to warranty data.
1800015	Warranty (OSD)	Warranty Ad Hoc Report	Adds additional fields to the Ad Hoc tool for warranty: NIIN, IUID, ID NUMBER, OEM PART NUMBER, AGENCY SERIAL NUMBER; TAMCN.
1800062	SDR	DLM 4000.25, Volume 2, C17.3.12.1.2	Adds the Discrepancy Code selection to the action point editable web page just above the Action Points Reply Code.
1800064	SDR	WebSDR Overwrites	Prevents overwriting the action point DoDAAC's info, if already redirected with a 305/504 action point reply code and new transactions comes later from WebSDR.
1800067	RIMS	SET PRIORITY WITHOUT MIR ASSIGNED	The functionality Colby is looking for is the ability to set priorities after the record has been created, but before the MIR number is assigned, meaning that the Update Priority button needs to show up once the record is created/is able to be saved, but before the MIR number is assigned.
1800071	SDR	WebSDR Overwrites	For an 11-Reply transaction (BNR*11*), don't send the N1*SUS** line. This is to prevent PDREP from changing the owner manager of a SDR created external to PDREP-AIS.
1800078	RIMS	Drop Down	Adds OPW to the Project drop down.
1800102	User Access	Accounts Emails	Updates E-mail routing related to user access updates to webpmsmh_app@navy.mil , help desk.
1800115	PQDR	Back Button alignment on Worklist	Moves button back to center of page
1800124	GIDEP	Link	Fixes link on Contractor Profile to access the GIDEP View.
1800161	Warranty	New data for upload	Updates the warranty file upload process for new data elements added to PDF and excel file.
1800162	Warranty	Excel and PDF File	Adds NIIN; IUID; ID NUMBER; OEM PART NUMBER; AGENCY SERIAL NUMBER; TAMCN to the warranty pdf and excel file.
1800195	SDR	SDR Search Results Limit	Limit can be up to 20K. Make similar warning as to PDREP Search when record count exceeds max to narrow search criteria.
1800202	User Access	Sponsor Approval	Fax number no longer mandatory for contractor access approvals by sponsor.
1800223	PQDR	Worklist Word Wrap	Fixes word issue wrap on the PQDR work list.
1800249	Ad Hoc	SAP Fields	Adds SAP supplier address fields to the SAP Ad Hoc drop down

FEEDBACK RCN	PROGRAM	TITLE	CHANGE NARRATIVE
1800280	RIMS	RIP Update	Adds "RIP 136.2-291D" to the inspection procedure drop down list.
1800281	SDR	Advanced Search	Fixes issue when searching for shipper RIC/CAGE
1800305	Prime Access	Ship Builder View	Adds additional views of data for prime contractors so more data is available when working within their permitted CAGE.
1800309	RIMS	Drop Down update	Adds "X64" to drop down box
1800341	RIMS	Print Version	Prevents a print copy from being editable.
1800356	RIMS	Drop Down update	Adds project to drop down BLOCK (12).
1800392	RIMS	MIR Rev 2	Delete Rev 2 on MIR N39040-16120004
1800401	PQDR	Implicit Assignment	Removes implicit PQDR assignment added in previous publish for Army.
1800402	PQDR	Exhibit Receipt	Removes access restrictions added in previous publish for Army.
1800419	RIMS	RIP 68R to RIP 68S	Change RIP 68R to RIP 68S
1800421	RIMS	RIMS RIDL Issue	MIR GN10-0010 Can't print a RIDL Report. Need to insert dummy data into the record for FSC or FSC Description.
1800485	RIMS	RIMS Procedure Removal	Remove RIP 136.2-233Q from the list.
1800422	RIMS	RIMS MIR Issue	MIR Record can't be assigned a new status (RP09-013A). Need to insert dummy data into the status table.
1800505	RIMS	Issue with RIMS Priority	Data integrity issue. Clicking into the document number box when it has no document number and then tabbing out/clicking out under certain circumstances will overwrite the current priorities and need-by-date on the record to the first line in the priority table.
1800524	RIMS	Inspection Procedures	Change RIP 5A to RIP 5B and add attribute 04
1800545	PQDR	Attachment	Except for nuclear RIMS, when uploading an attachment a pop up is added to remind personnel not to upload classified or NOFORN attachments.
1800548	RIMS	Inspection Procedures	Change RIP 136.2-270F to Rev. G
1800549	RIMS	Inspection Procedures	Change RIP 136.2-291C & D to Rev. E
1800550	NUC RIMS	SAM	Adds new report
1800551	NUC RIMS	SAM	Adds Email feature
1800555	RIMS	Inspection Procedures	Change RIP 9A to 9B
1800574	SDR	Action point User Code	Fixes issue with the action point user code updating on import from WebSDR.
1800582	Warranty	PDF Download	Updates download process of PDF file to include new data elements.
